

# THE FLAT EARTH MODEL

## 12 KEY IDEAS EXPLAINED

1. THE EARTH IS FLAT

2. THE EARTH IS STATIONARY

3. THE SUN & MOON ARE LOCAL

4. DAY & NIGHT ARE CAUSED BY THE SUN'S MOVEMENT

5. THE MOON'S LIGHT IS REFLECTED

6. WEATHER IS CONFINED

7. NO OUTER SPACE

8. THE STARS FIXED OR MOVING WITHIN THE DOME

9. PERSPECTIVE-BASED EXPLANATIONS FOR HORIZONS

10. ALTERNATIVE MAPS (AZIMUTHAL EQUIDISTANT)

11. CONSPIRACIES TO HIDE THE TRUE SHAPE OF EARTH

12. SEEK TRUTH, QUESTION EVERYTHING, THINK FOR YOURSELF

EXPLORE. QUESTION.  
LEARN. THINK!

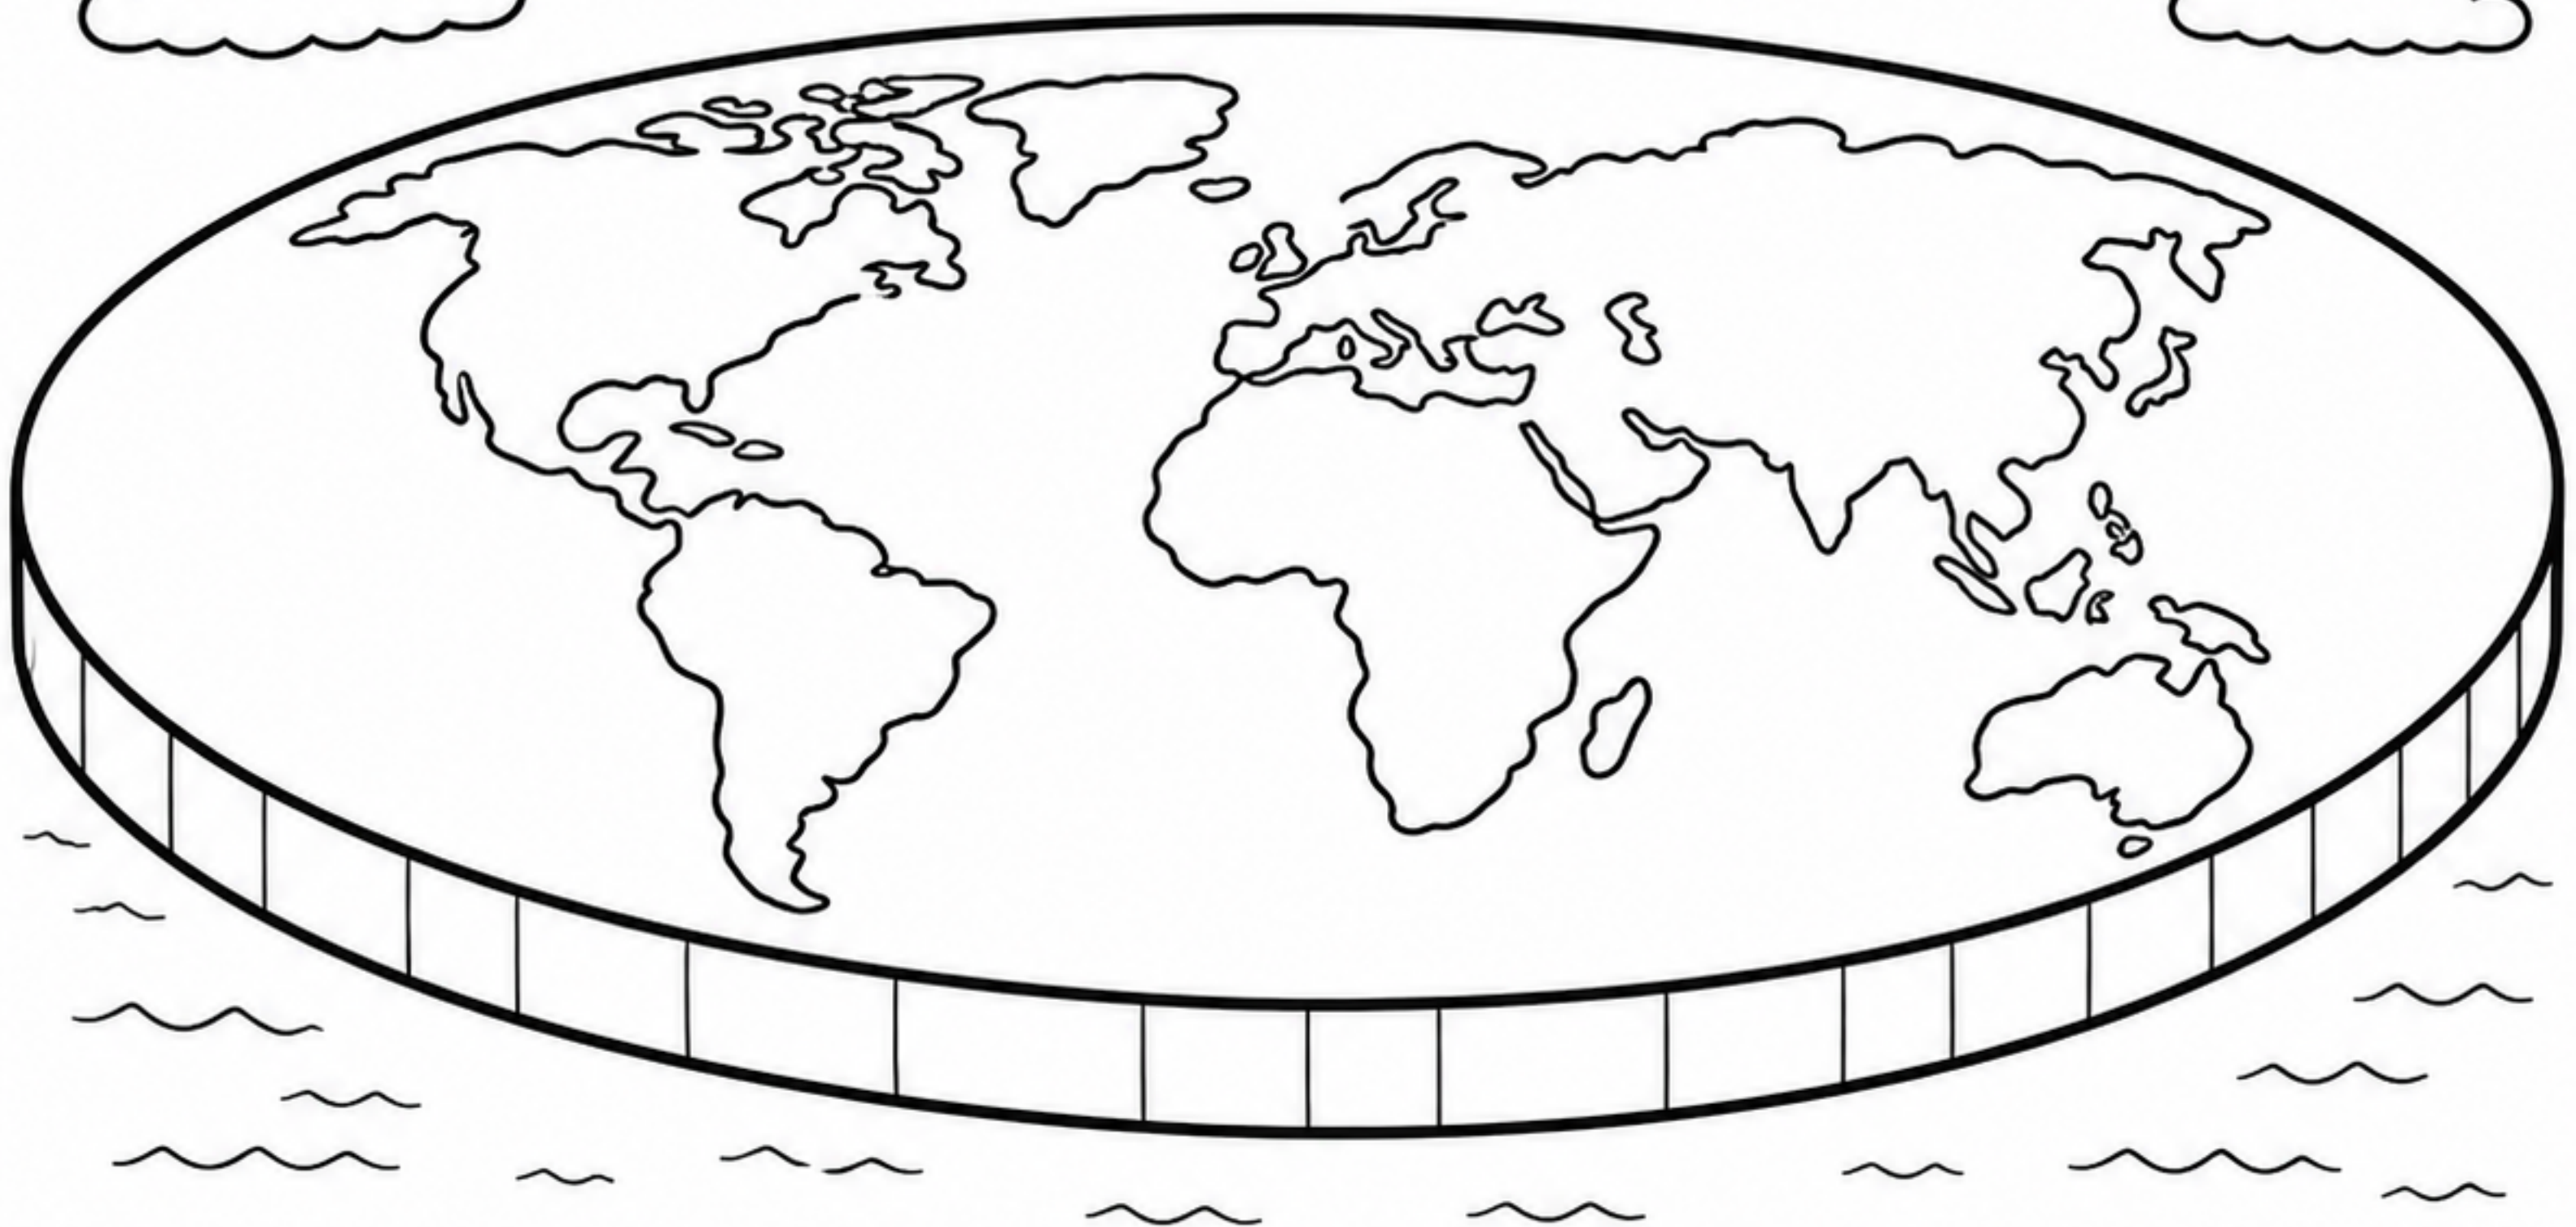

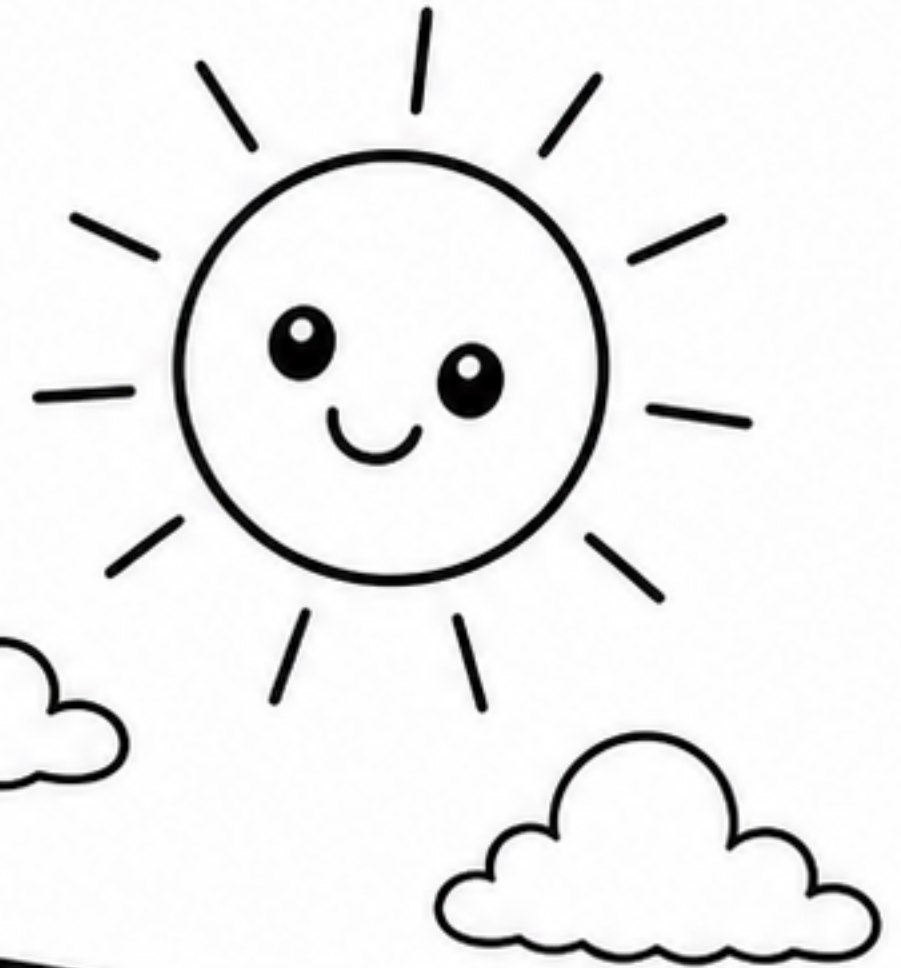

★ KNOWLEDGE IS POWER • TRUTH IS FREEDOM ★

# 1. THE FLAT, CIRCULAR EARTH

In the Flat Earth model, our planet is a flat circle, not a ball. It is like a giant disc!

The Earth is flat and shaped like a big circle!

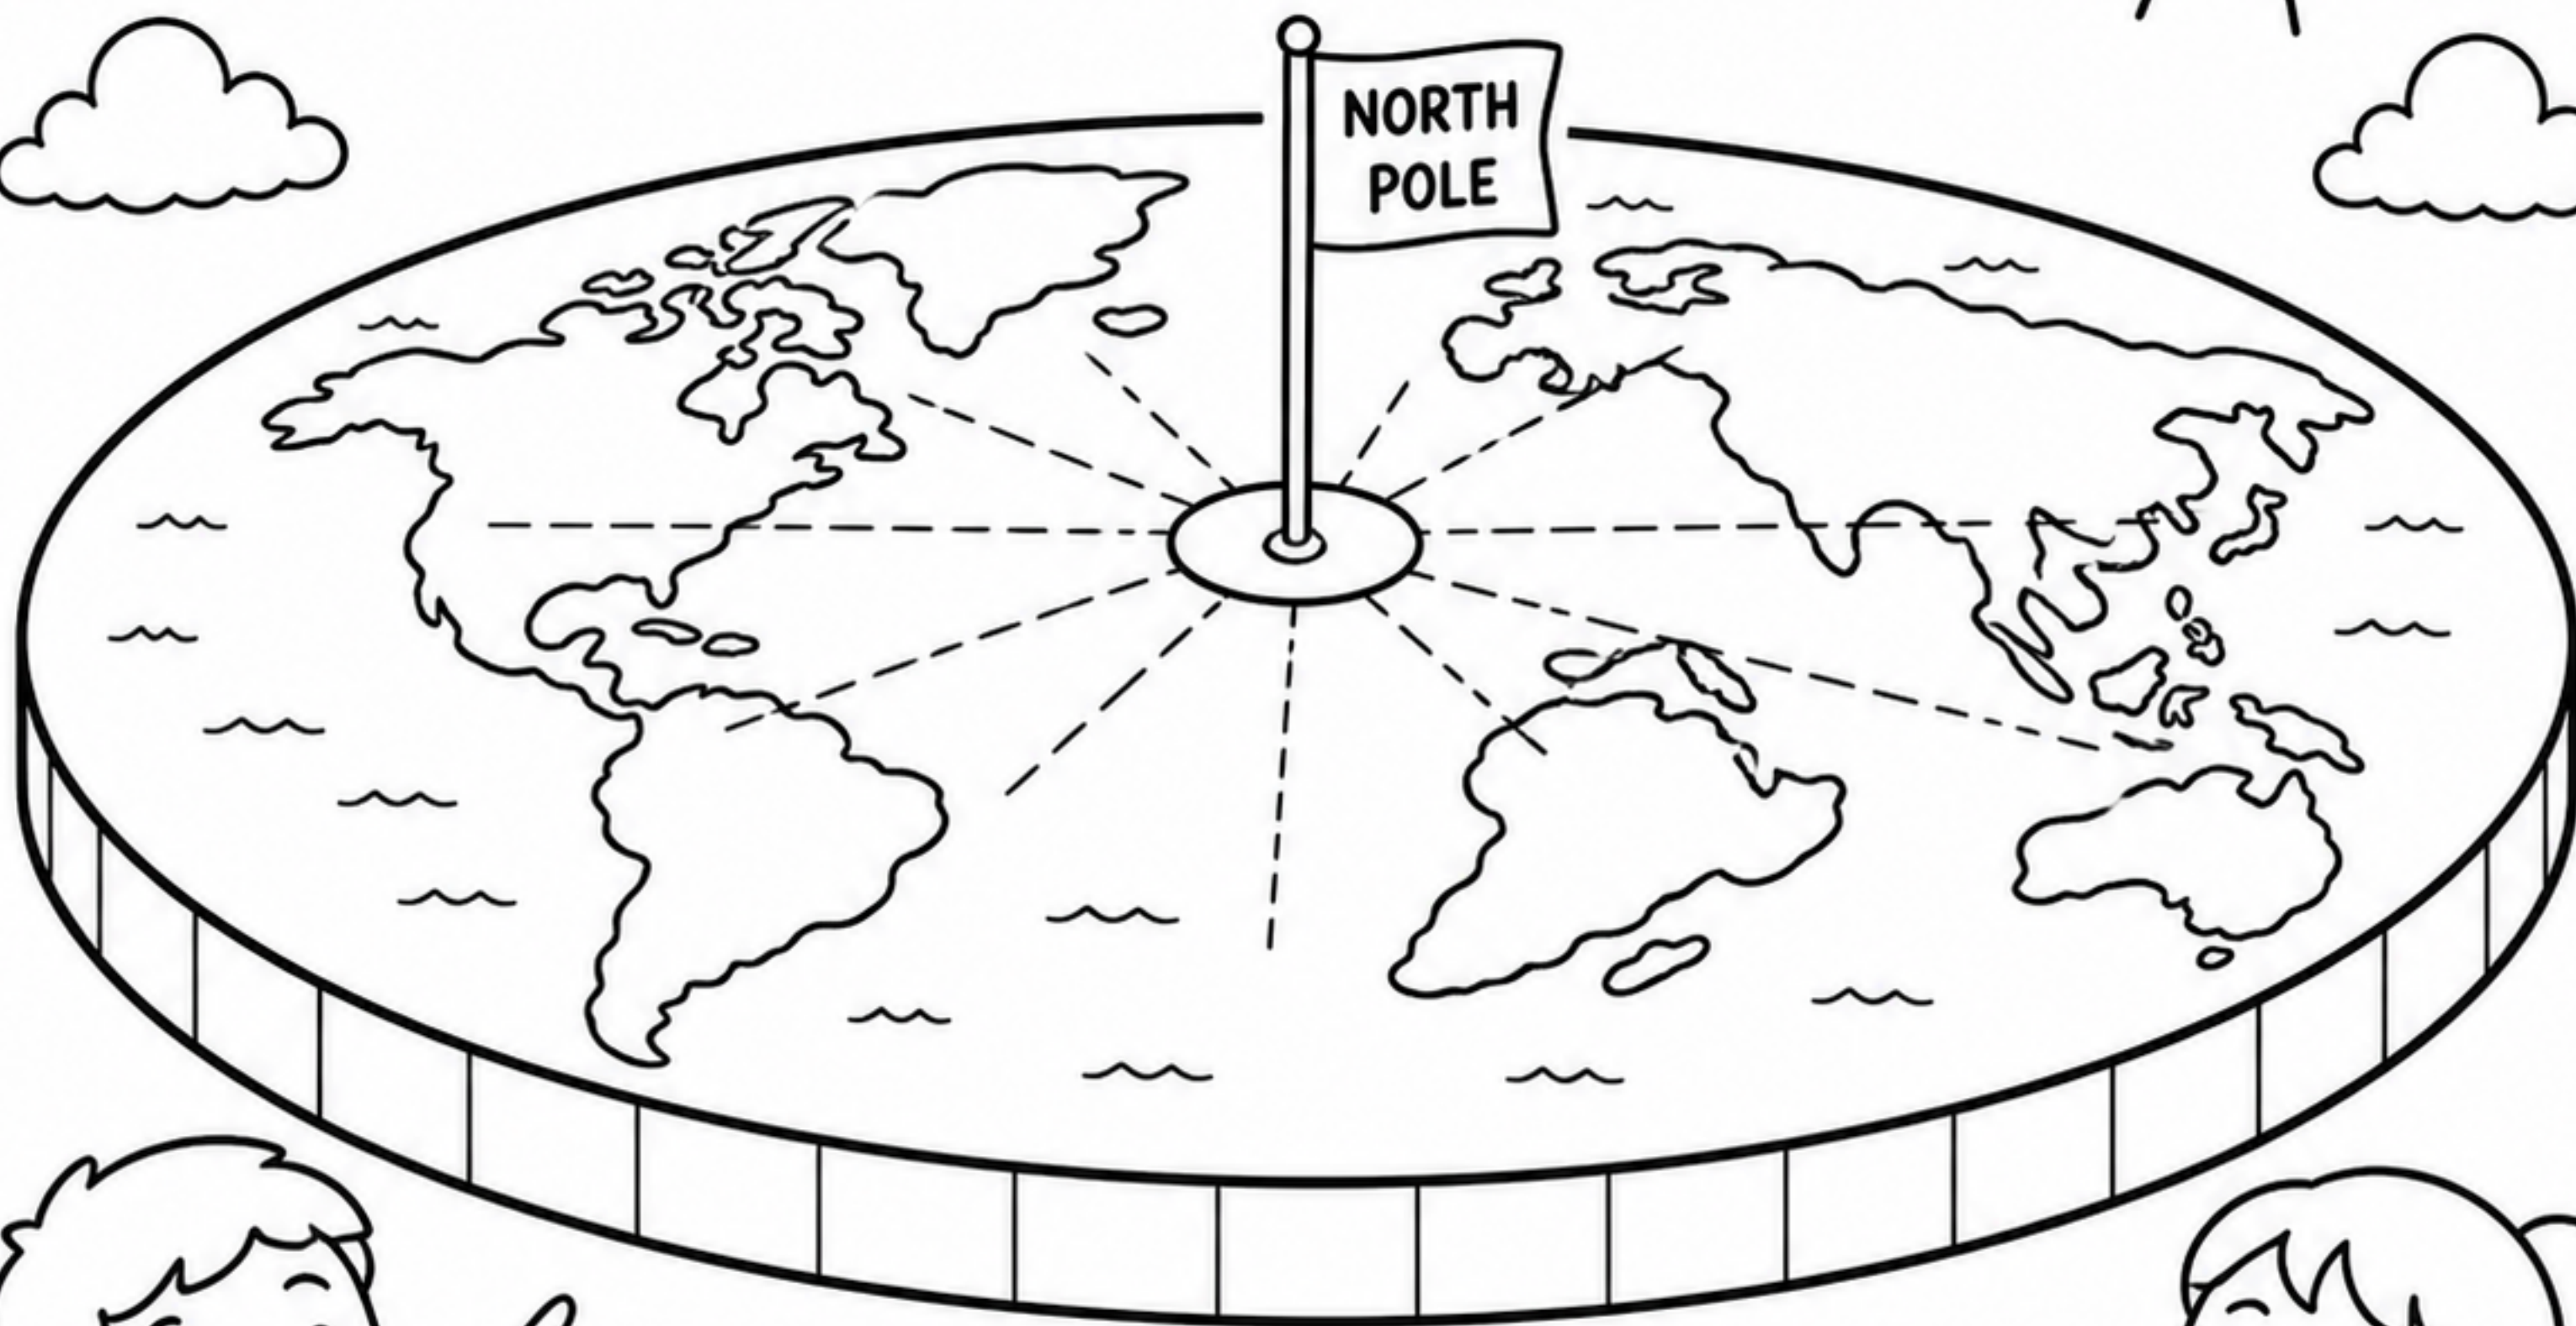

2.

# NORTH POLE AT THE CENTER

In the Flat Earth model, the North Pole is at the very center of the Earth!

All the land and oceans spread out from the North Pole in the middle.

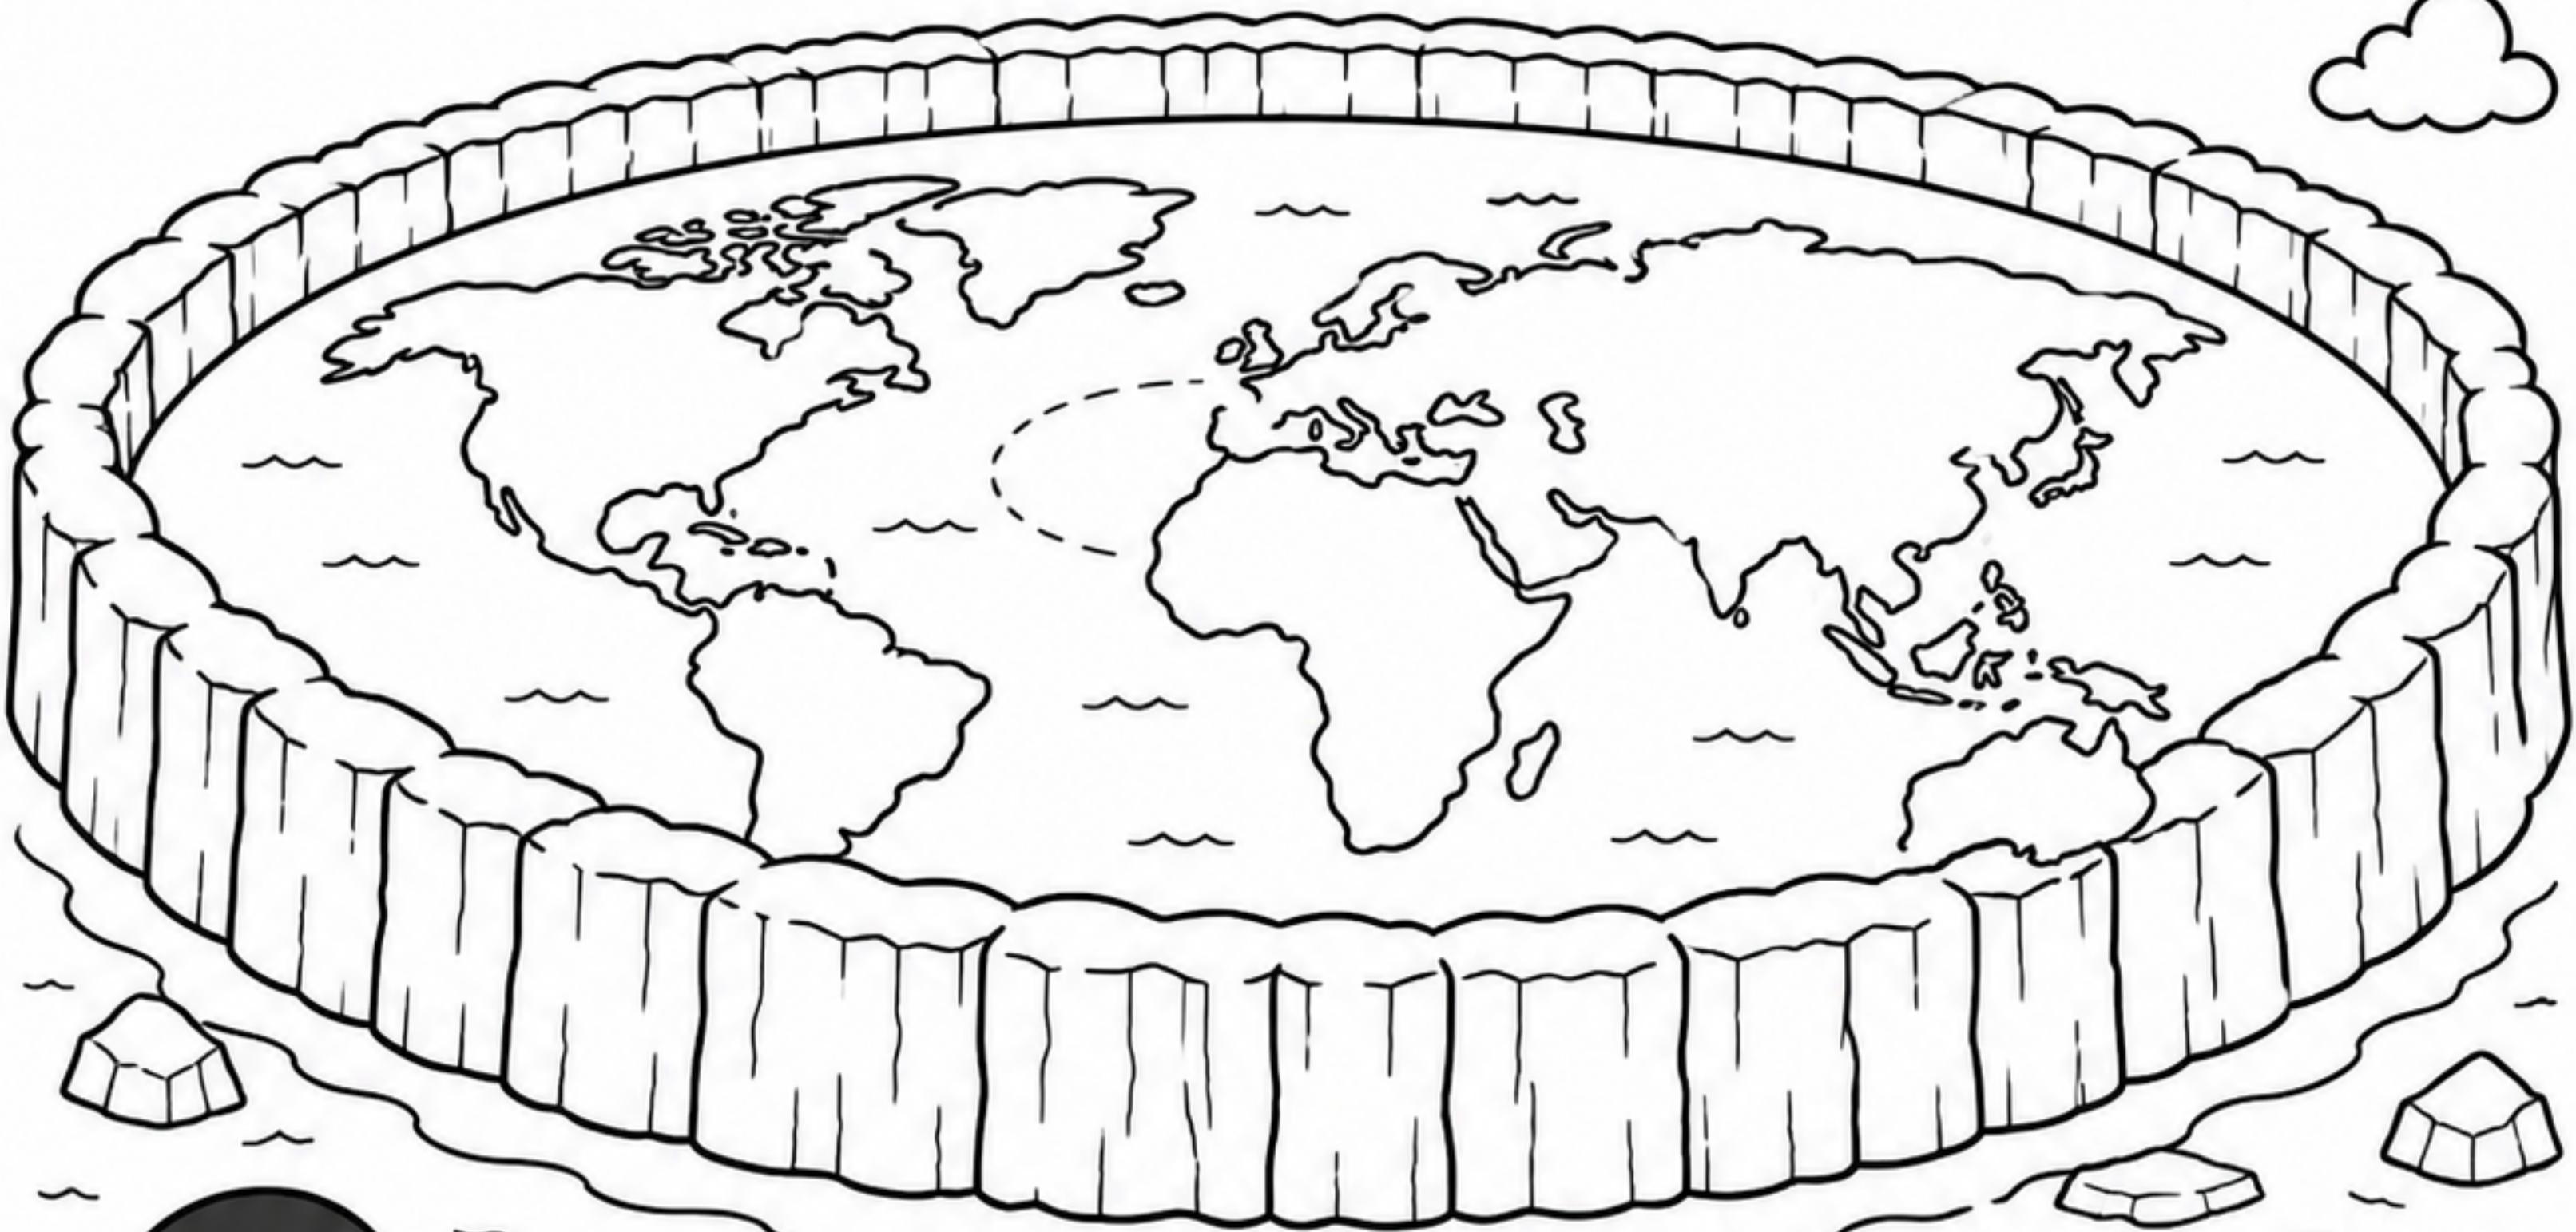

3.

# ANTARCTIC ICE WALL

In the Flat Earth model, Antarctica forms a giant ice wall around the edge of the Earth. It keeps all the oceans inside!

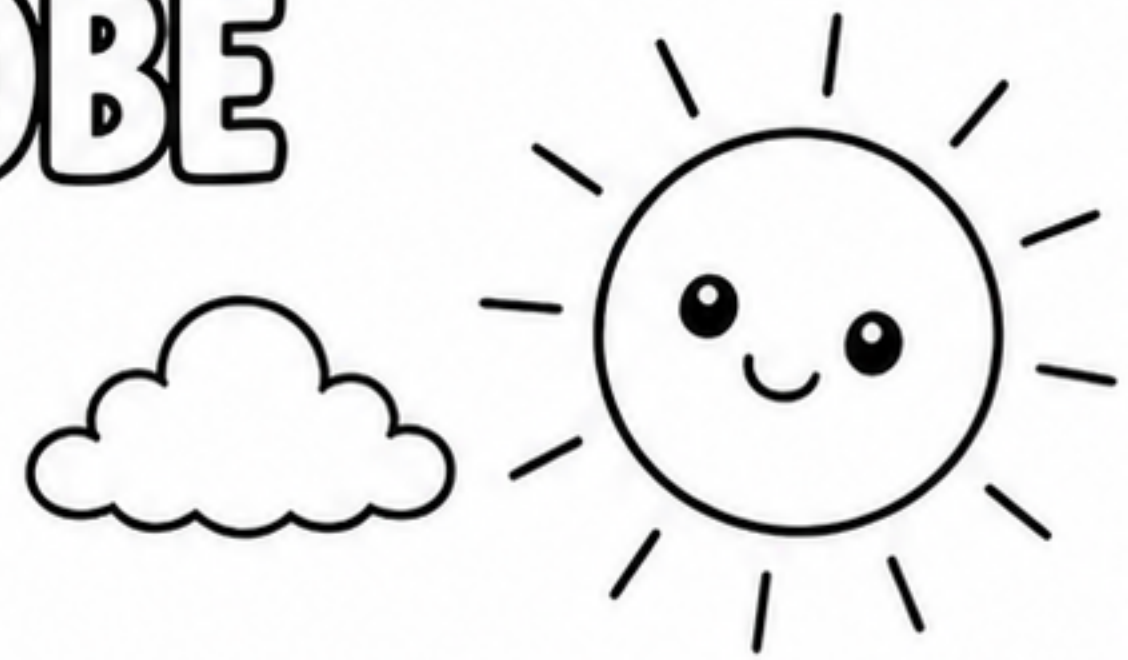

The tall ice wall surrounds the Earth like a giant frozen barrier!

ANTARCTIC  
ICE WALL

# 4. NO "DOWNWARD" GRAVITY LIKE A GLOBE

In the Flat Earth model, things don't fall down because of gravity pulling down. Instead, the Earth is steady and level!

## ON A GLOBE EARTH

Gravity pulls everything toward the center of the Earth.

## ON A FLAT EARTH

The Earth is flat and level, so things stay on the ground. No downward gravity!

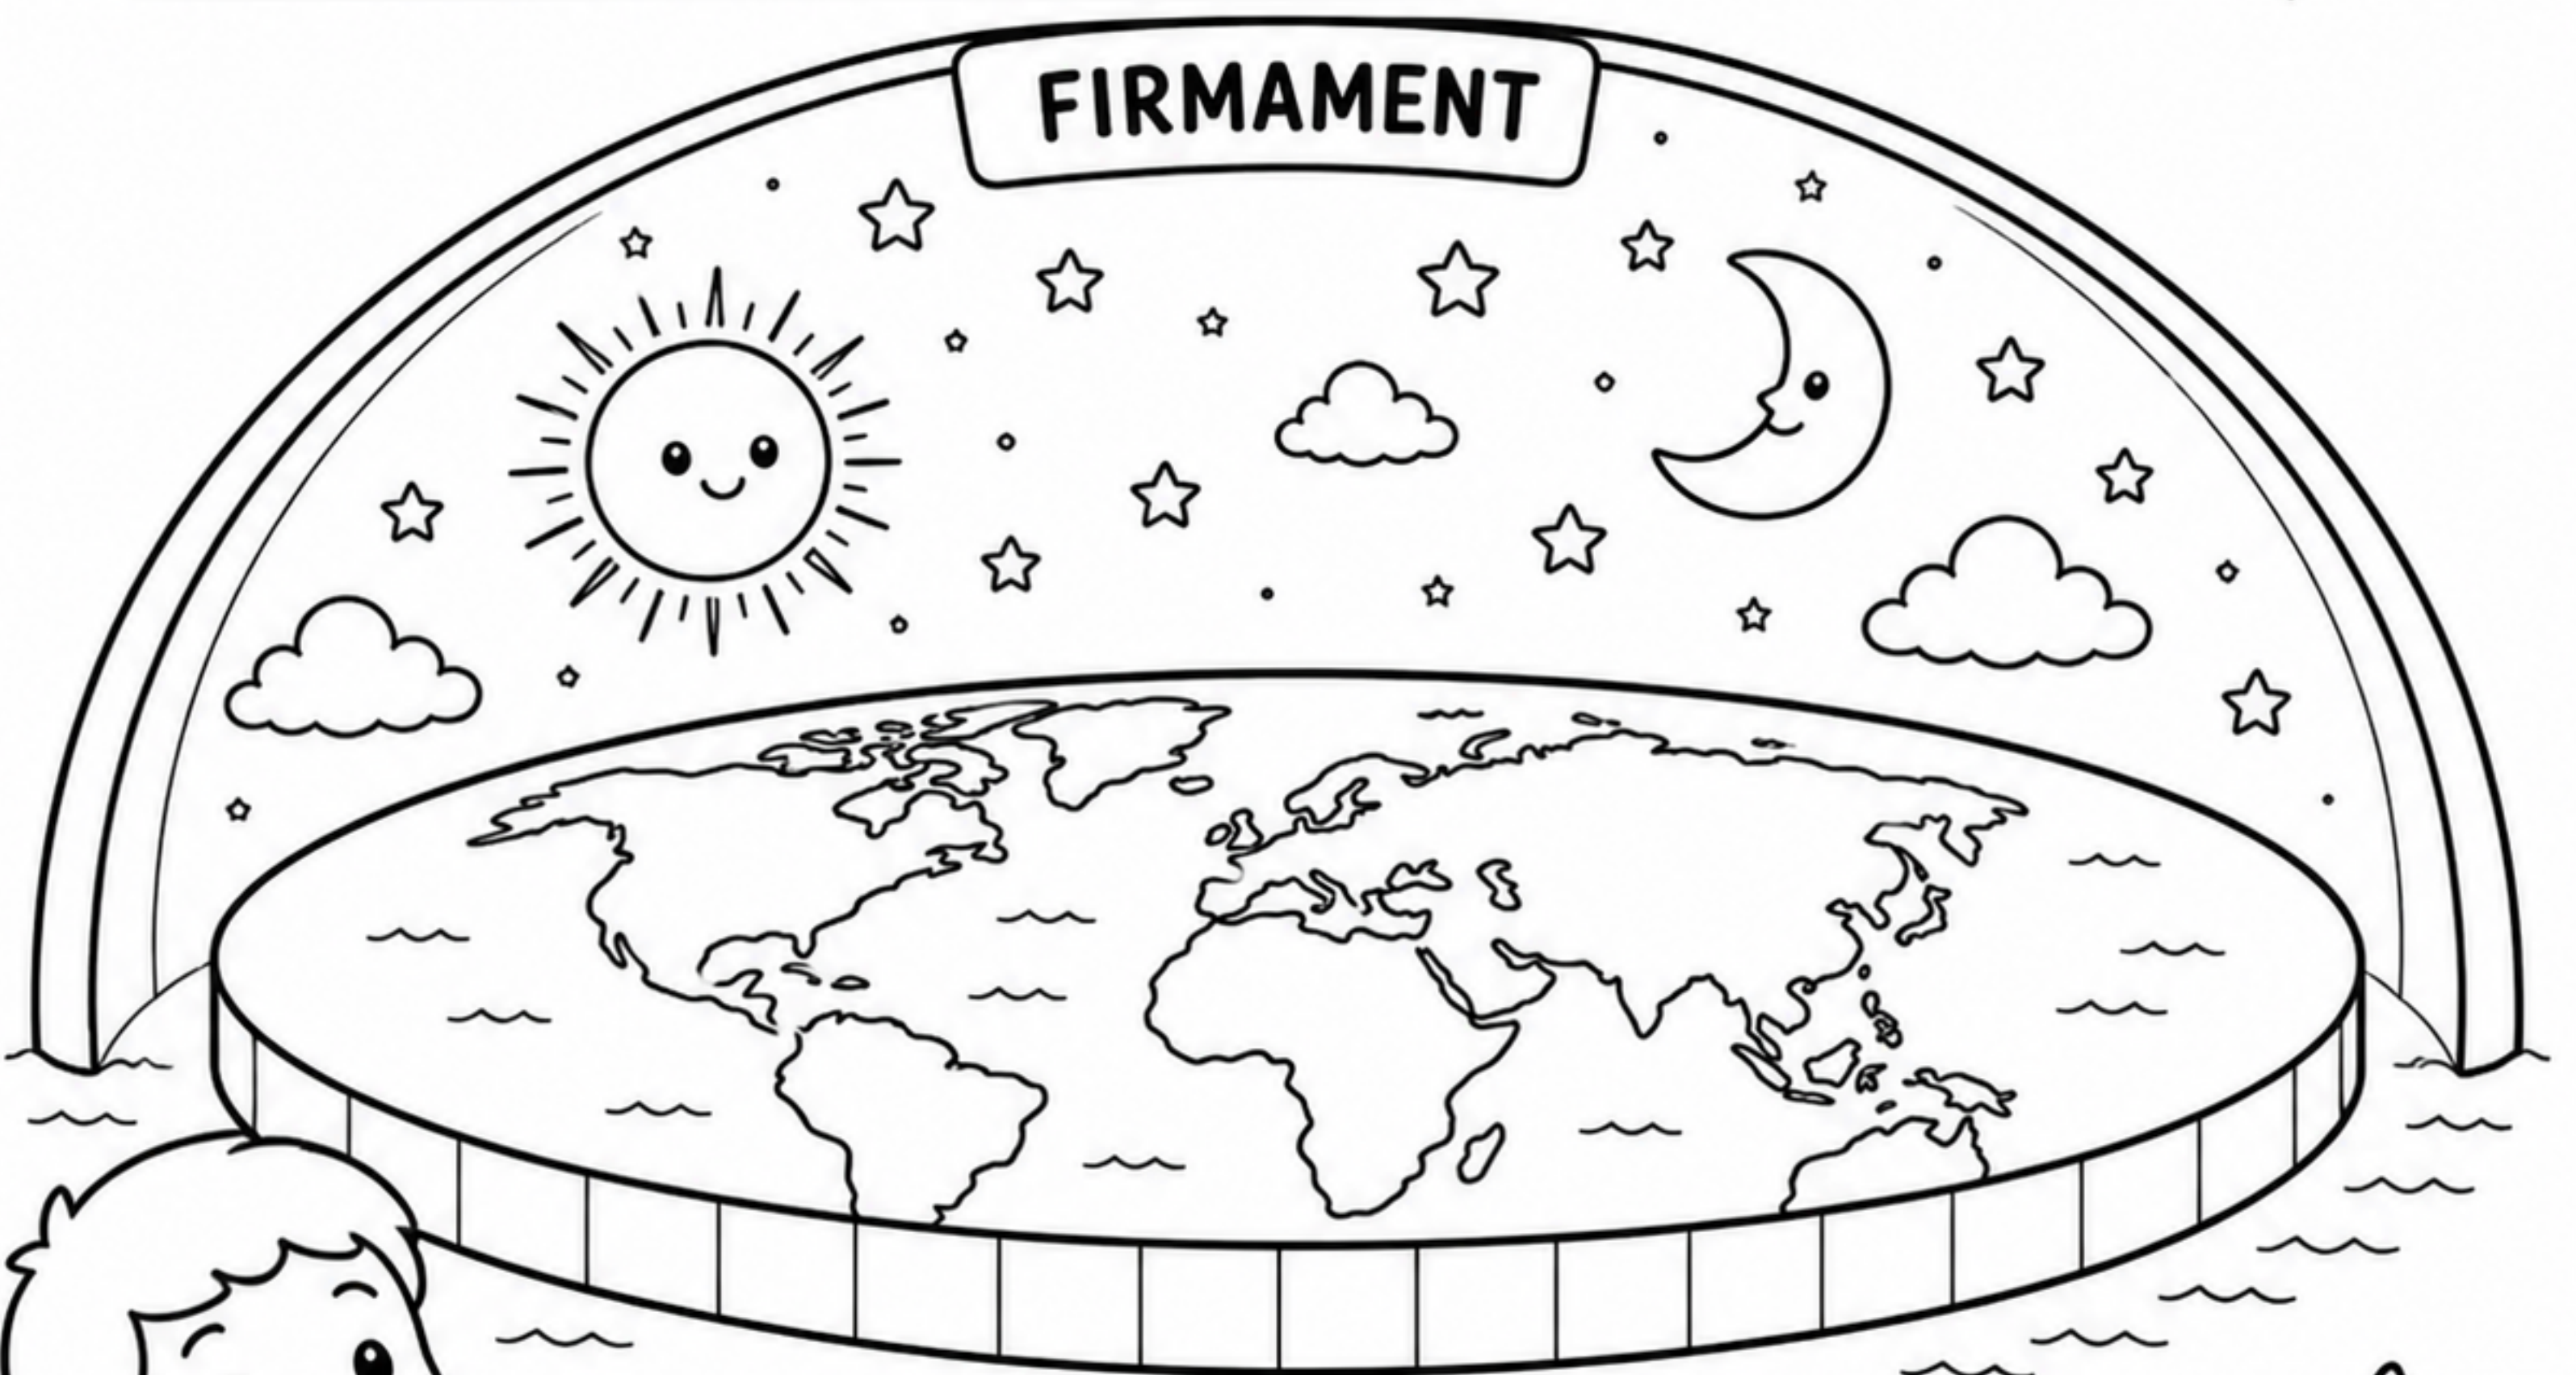

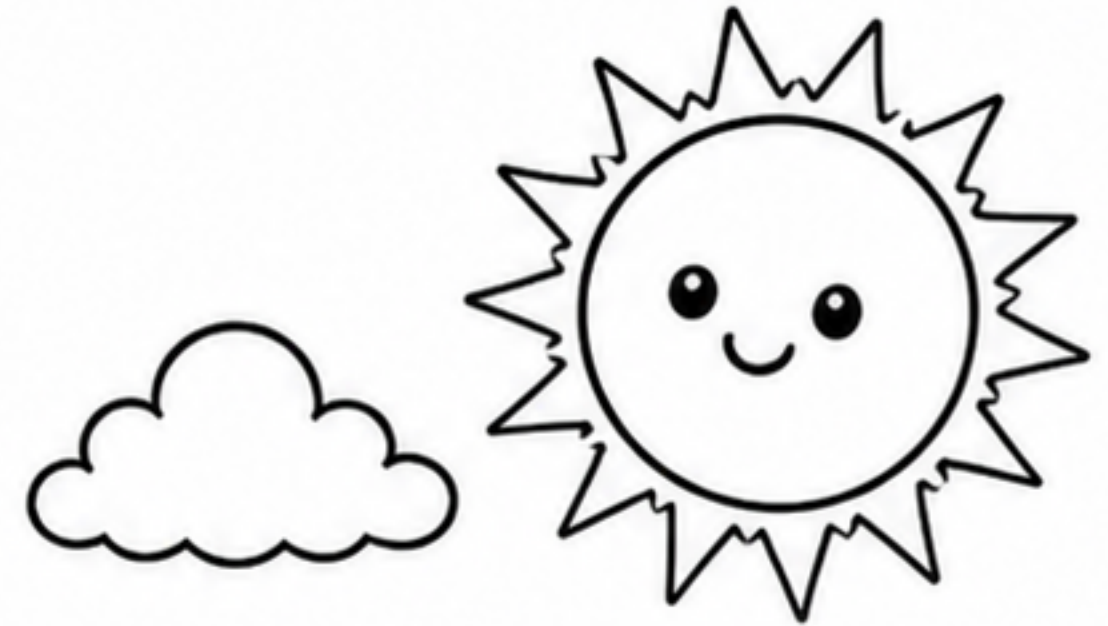

In the Flat Earth model, the Earth doesn't pull us down—everything is balanced and level!

# ★ 5. SKY DOME / FIRMAMENT ★

In the Flat Earth model, the Earth is covered by a dome called the Firmament. It holds the sky, clouds, sun, moon, and stars above us!

The dome acts like a big ceiling that keeps everything in and separates our world from what's beyond!

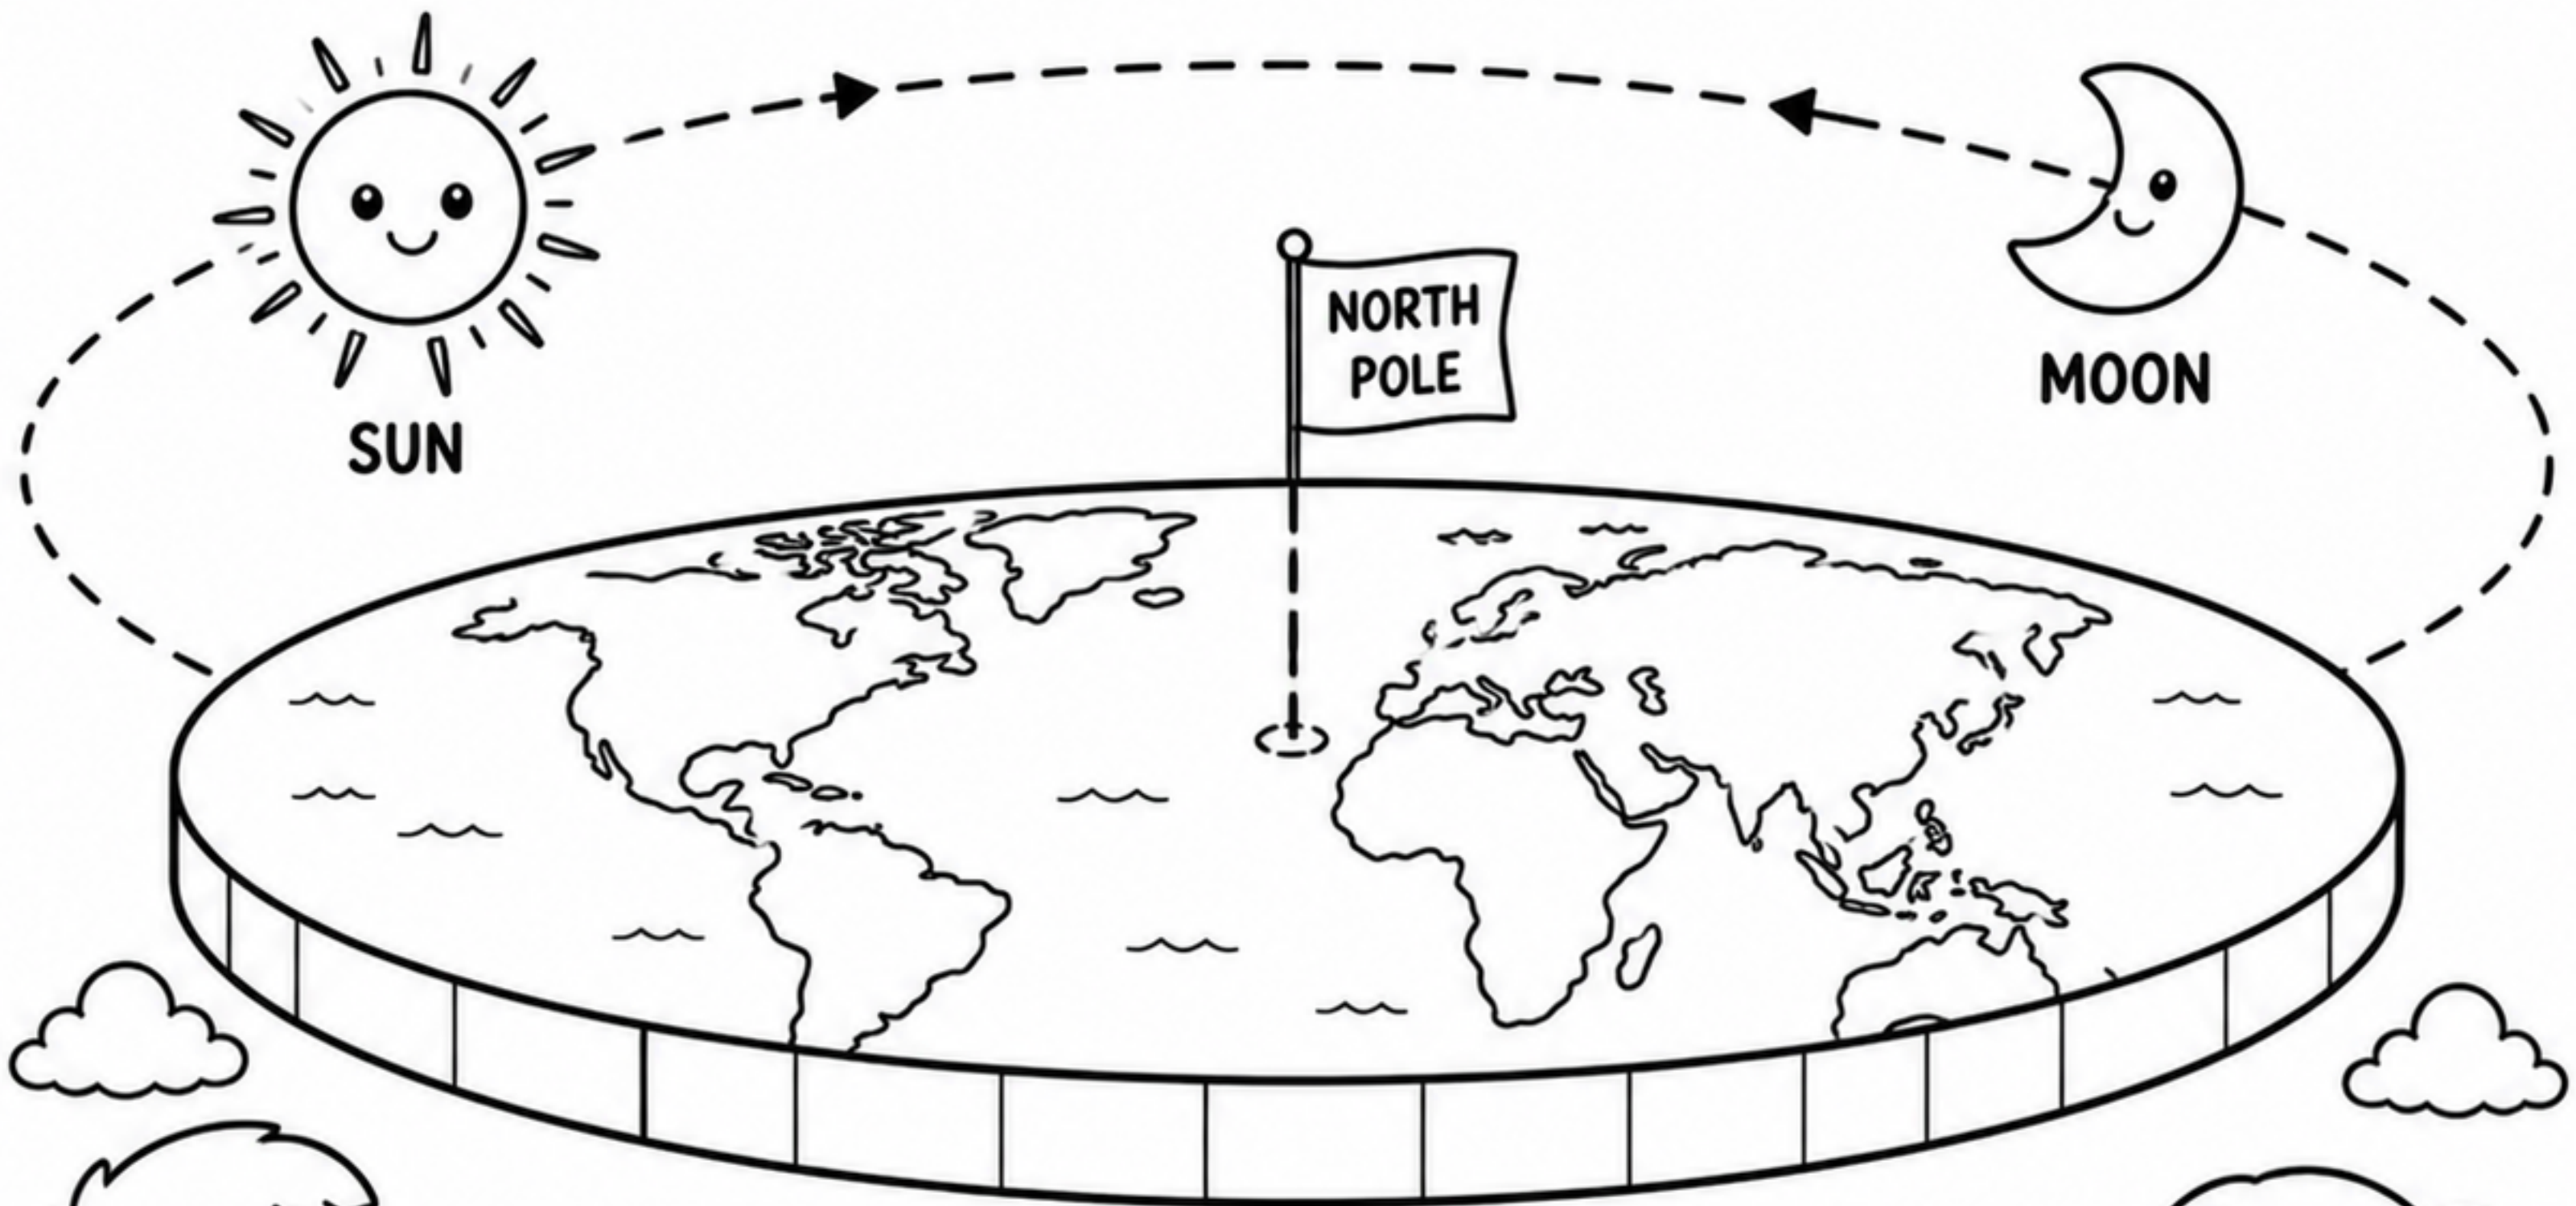

★ 6. ★

# SUN AND MOON MOVE ABOVE THE PLANE

In the Flat Earth model, the Sun and Moon move in circles above the flat plane of the Earth.

The Sun and Moon act like lights that travel in big circles above the flat Earth!

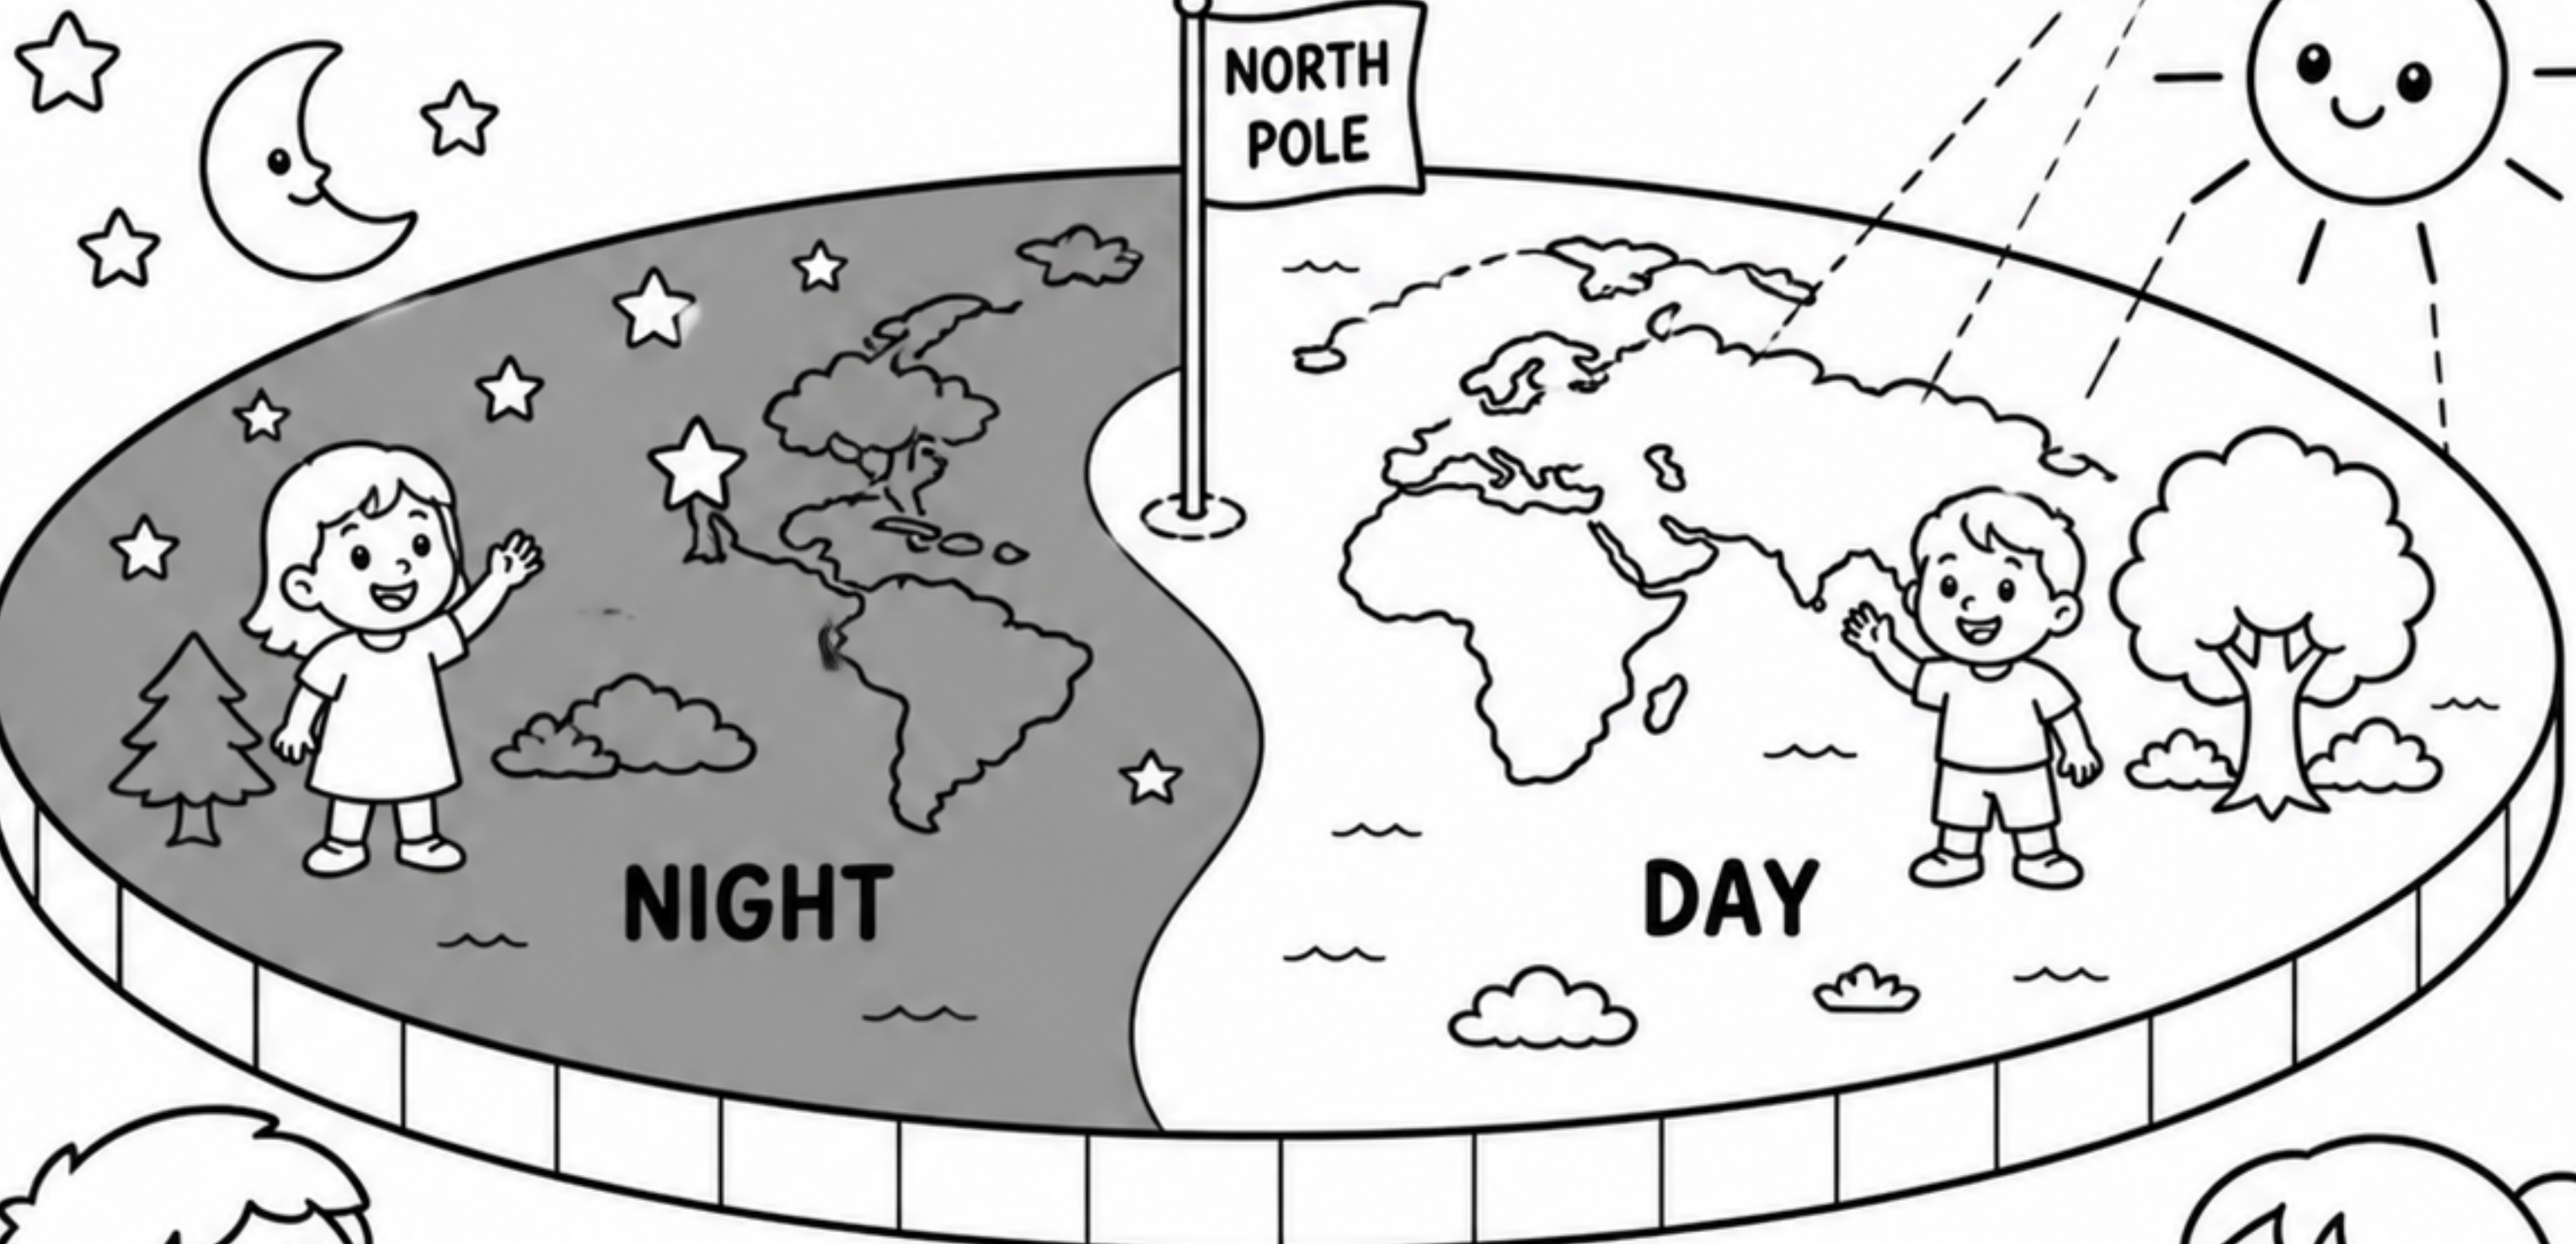

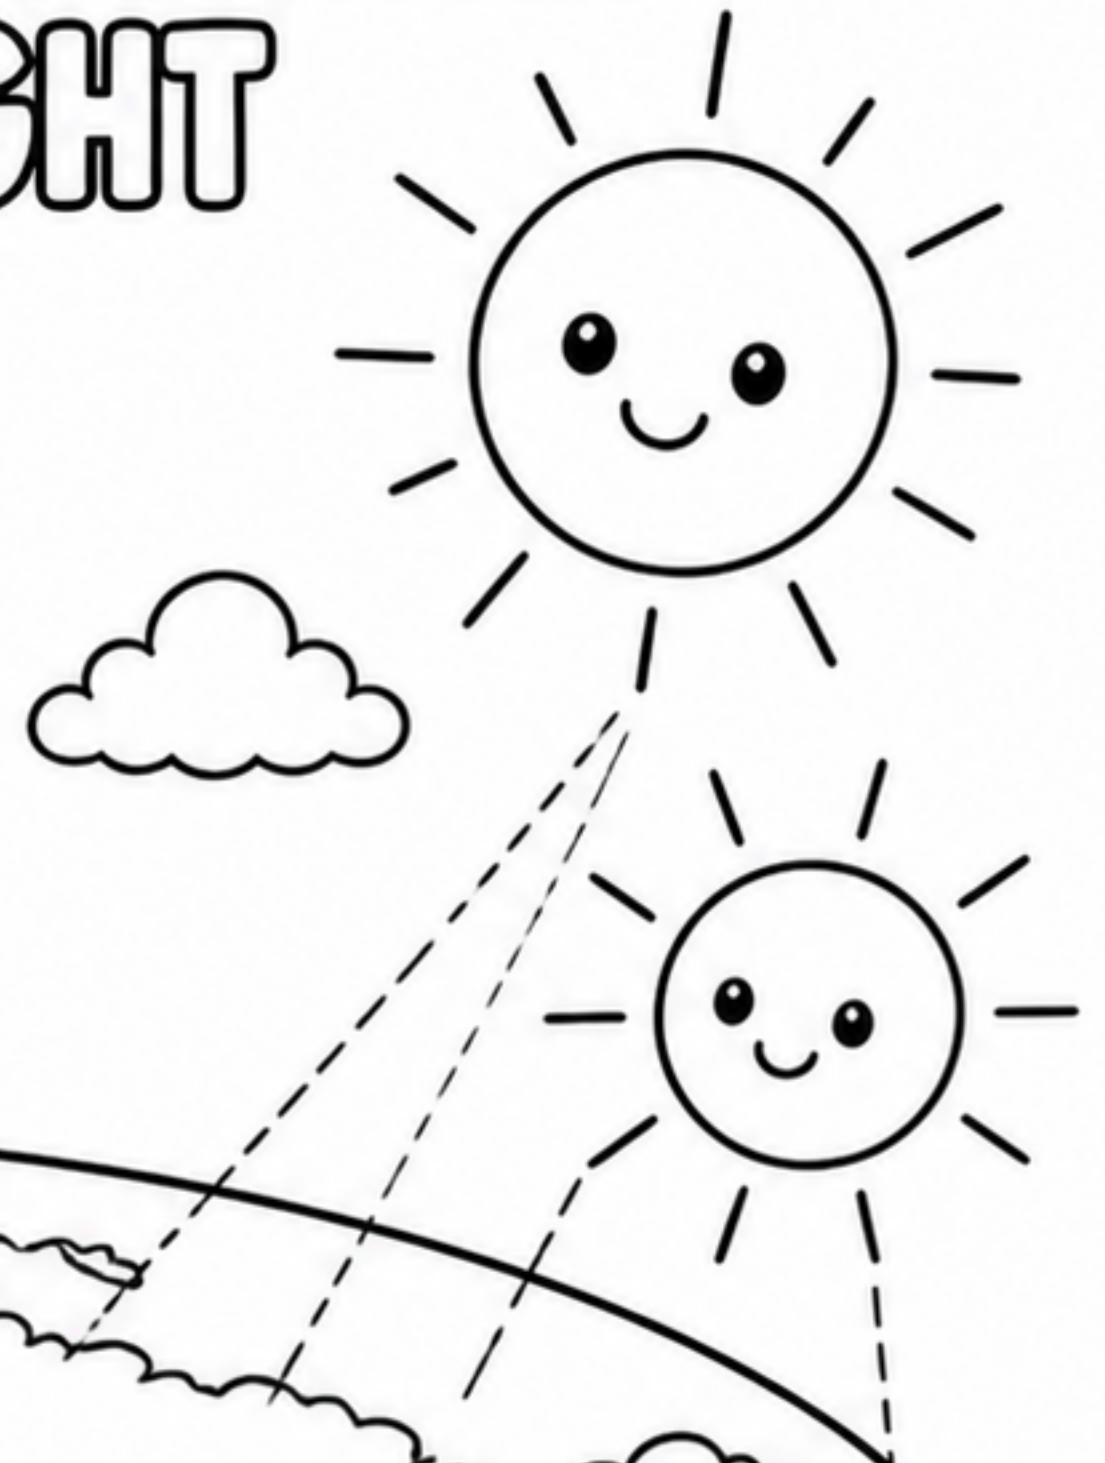

7.

# DAY AND NIGHT EXPLAINED BY LOCAL LIGHT

In the Flat Earth model, the Sun is like a spotlight. It shines on one part of the Earth at a time, creating day there, while the other part has night.

Where the Sun shines,  
it's DAY.  
Where the Sun doesn't shine,  
it's NIGHT.

8.

# ★ THE STARS: FIXED OR MOVING WITHIN THE DOME ★

In the Flat Earth model, the stars are inside the sky dome. Some appear fixed in place, while others move across the sky.

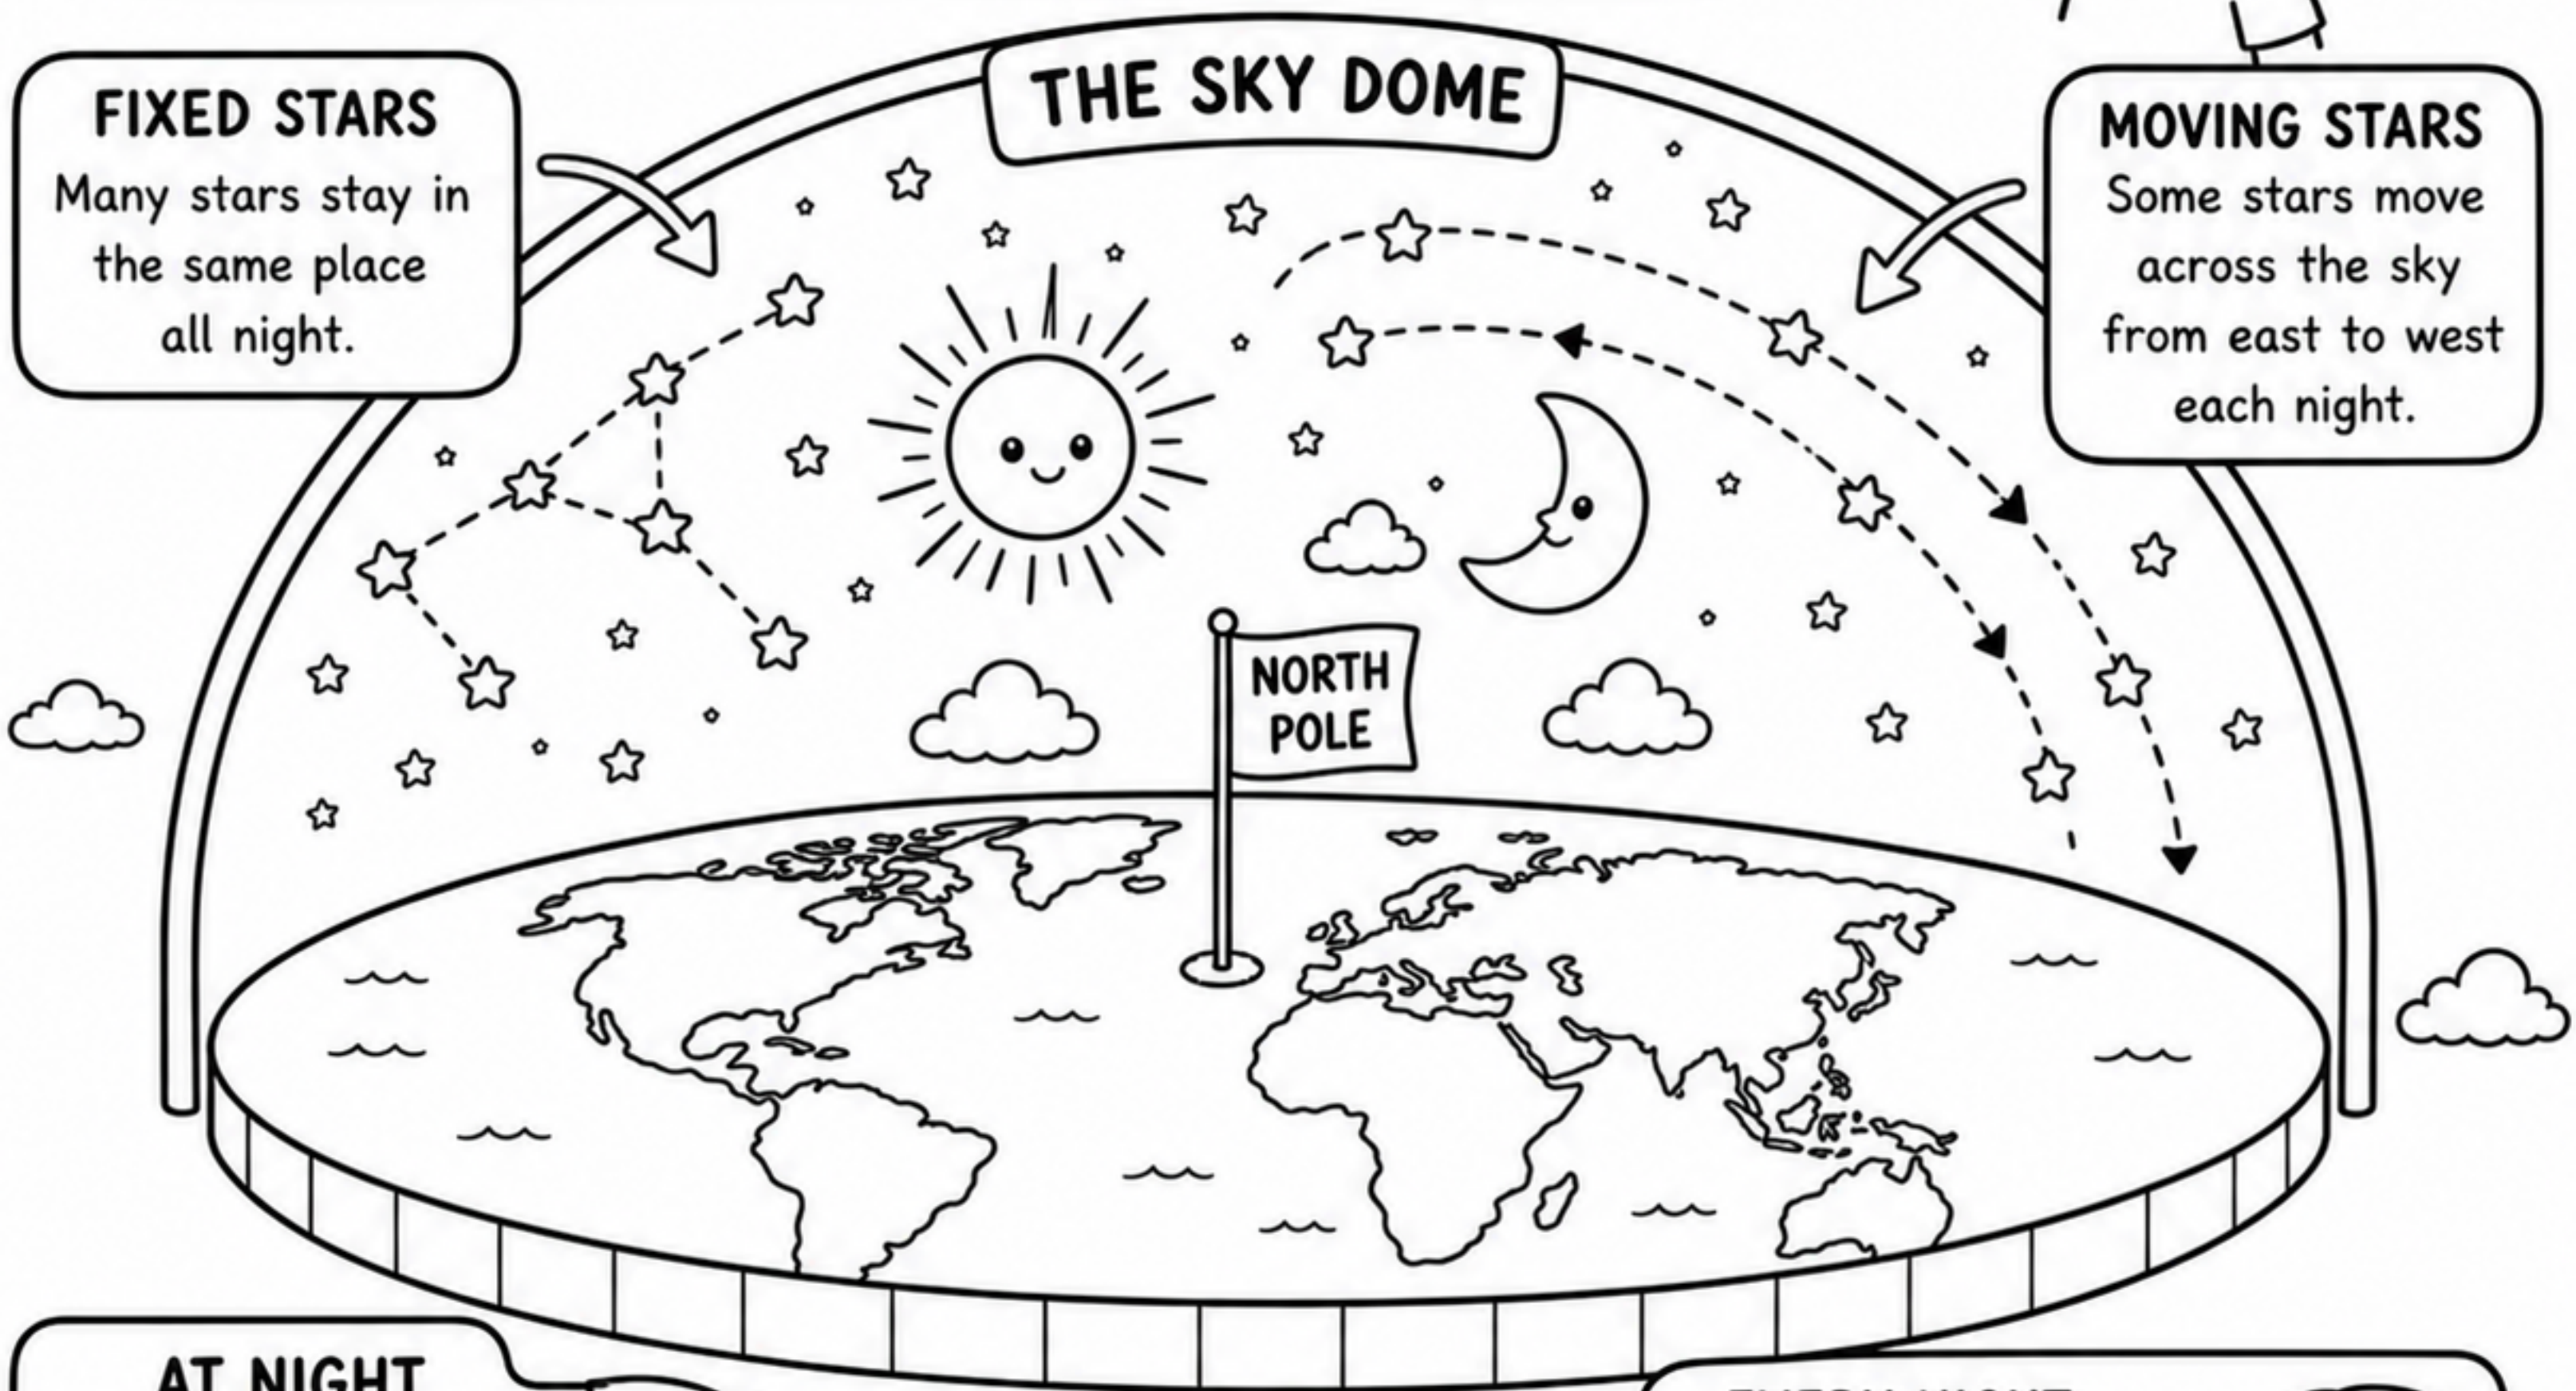

## FIXED STARS

Many stars stay in the same place all night.

## THE SKY DOME

## MOVING STARS

Some stars move across the sky from east to west each night.

## AT NIGHT

The stars shine above us inside the dome.

The stars are not far away in space. They are close and within the dome!

## EVERY NIGHT

The stars move in the same pattern, showing they are in the dome above the flat Earth.

9.

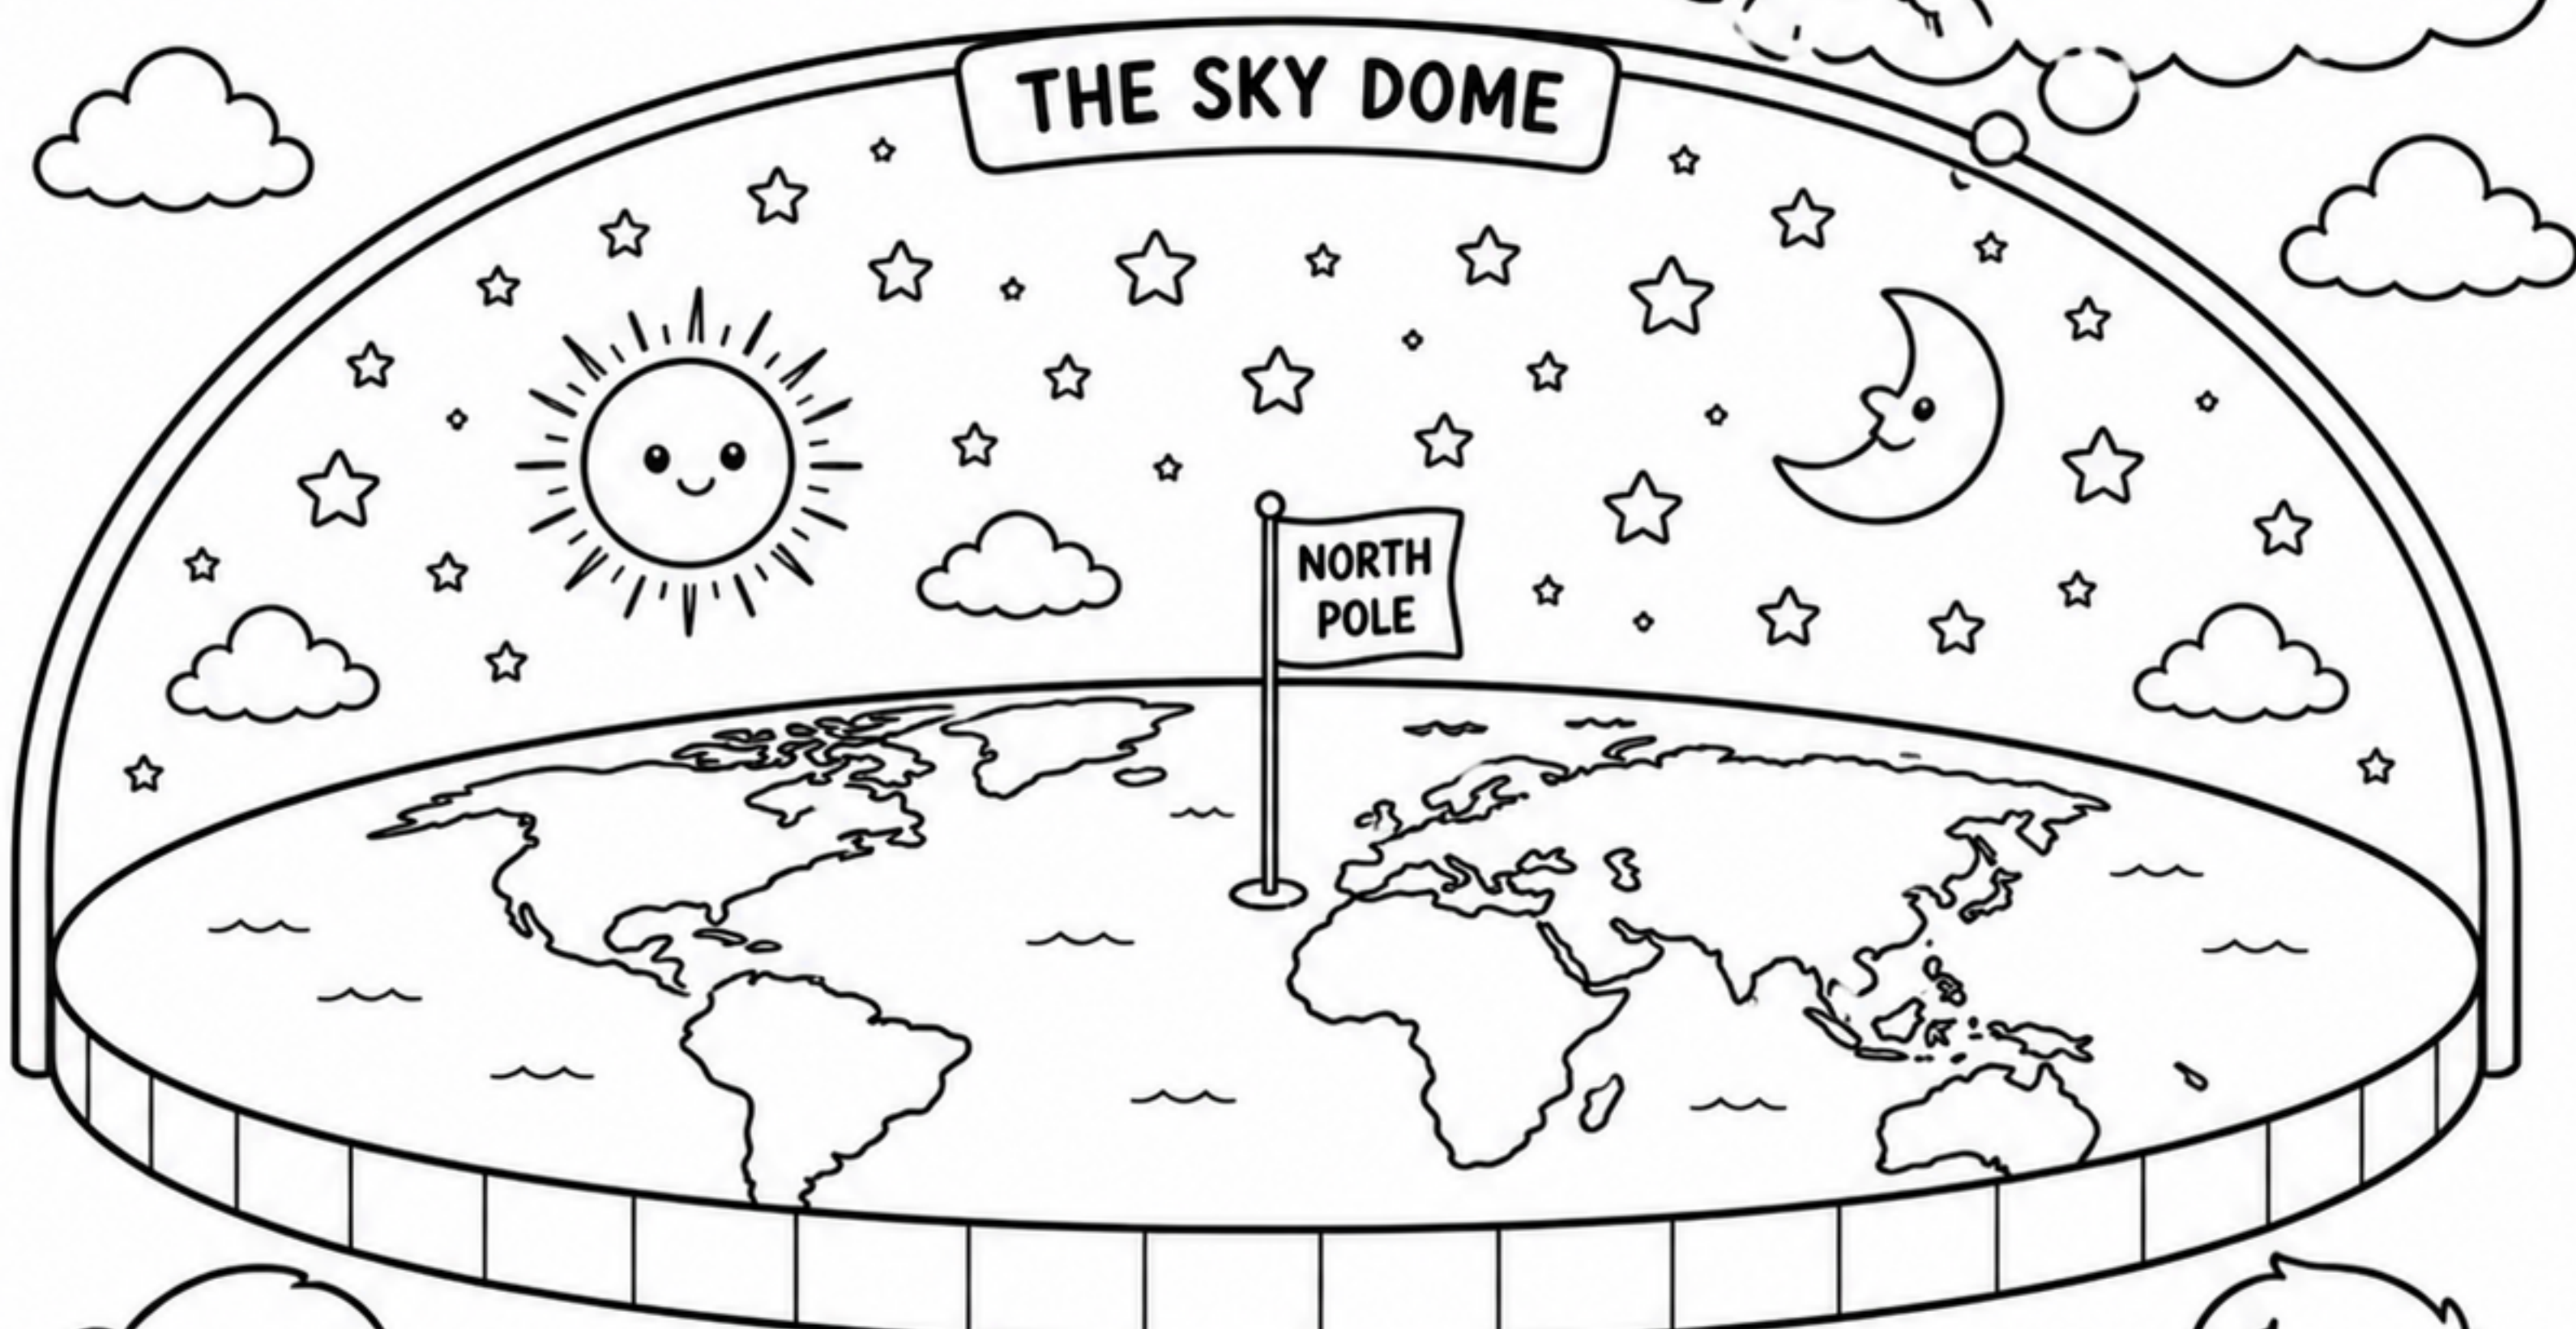

# NO OUTER SPACE AS COMMONLY UNDERSTOOD

In the Flat Earth model, there is no outer space like people think. The sky dome is all there is!

It's not a ball floating in space. It's a flat Earth covered by a dome!

Everything we see—the Sun, Moon, stars, clouds—is inside the dome. There is no big, endless space beyond it!

10.

# PERSPECTIVE-BASED EXPLANATIONS FOR HORIZONS

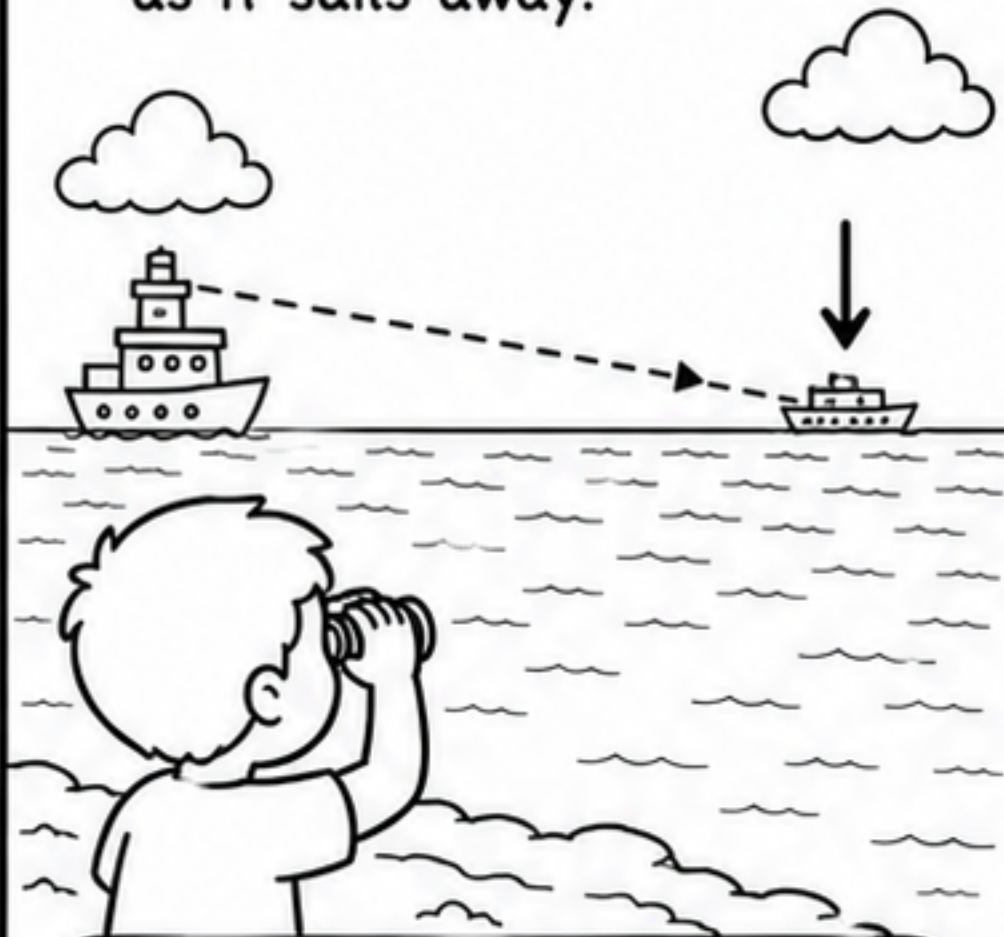

In the Flat Earth model, the horizon is not because the Earth is curved. It's because of perspective—the way our eyes see things!

The farther something is, the lower it looks!

## 1. LOOKING ACROSS WATER

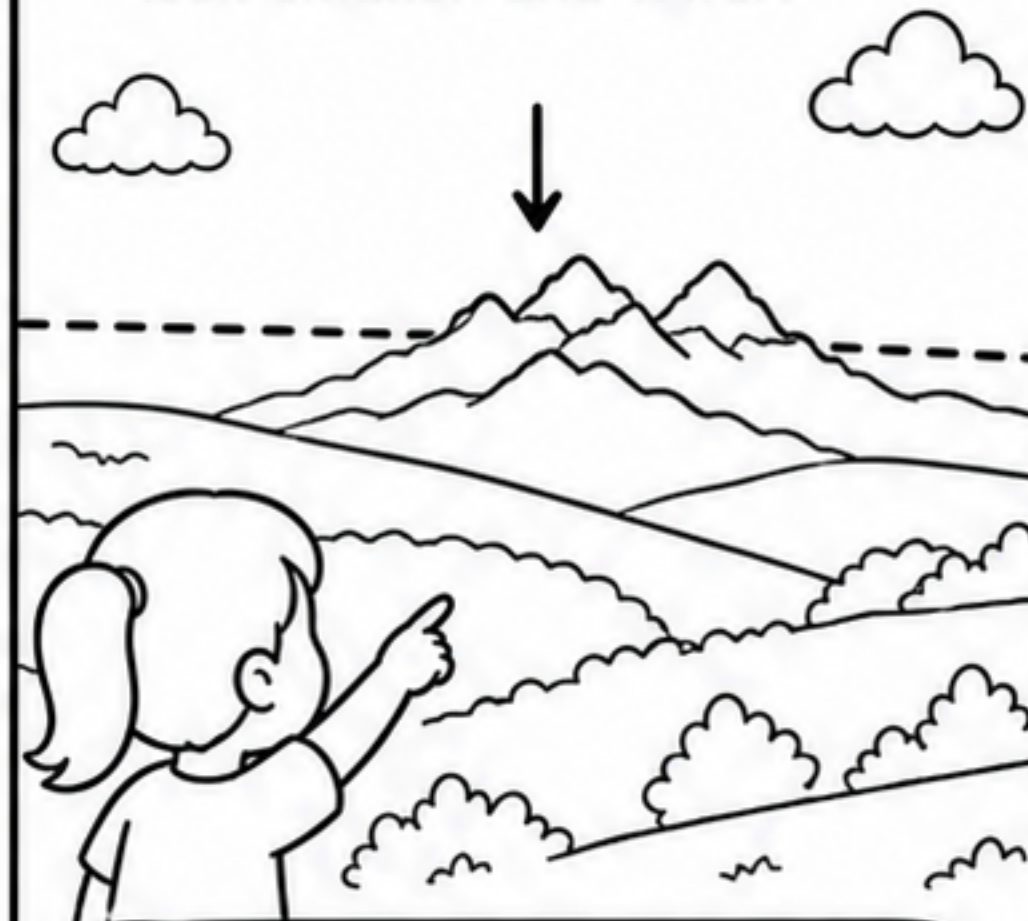

A ship disappears hull-first as it sails away.

The ship gets smaller and lower until it's hidden.

## 2. LOOKING AT MOUNTAINS

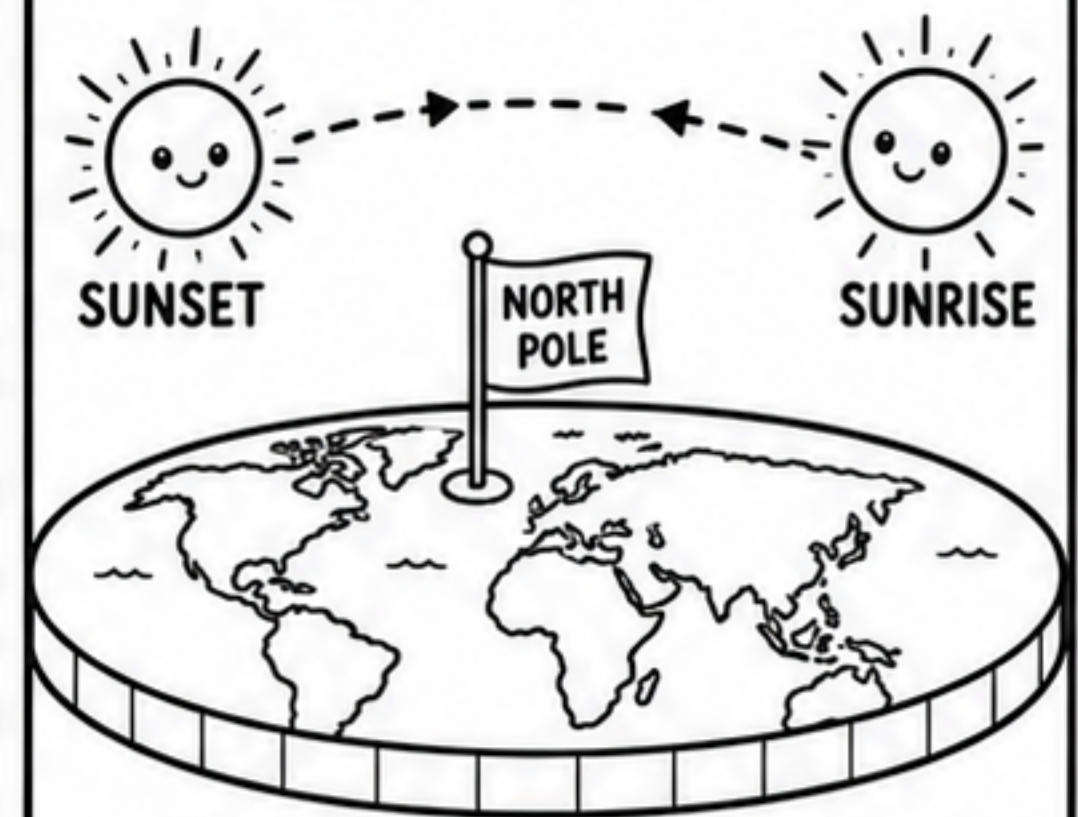

Mountains in the distance look smaller and lower.

They're still there, just far away!

## 3. LOOKING AT THE SUN

The Sun looks like it rises and sets, but it's moving in a circle above us.

Perspective makes it look like it rises and sets!

The horizon is an optical effect caused by distance and perspective, not a curve. This is why we see things the way we do on the Flat Earth!

11.

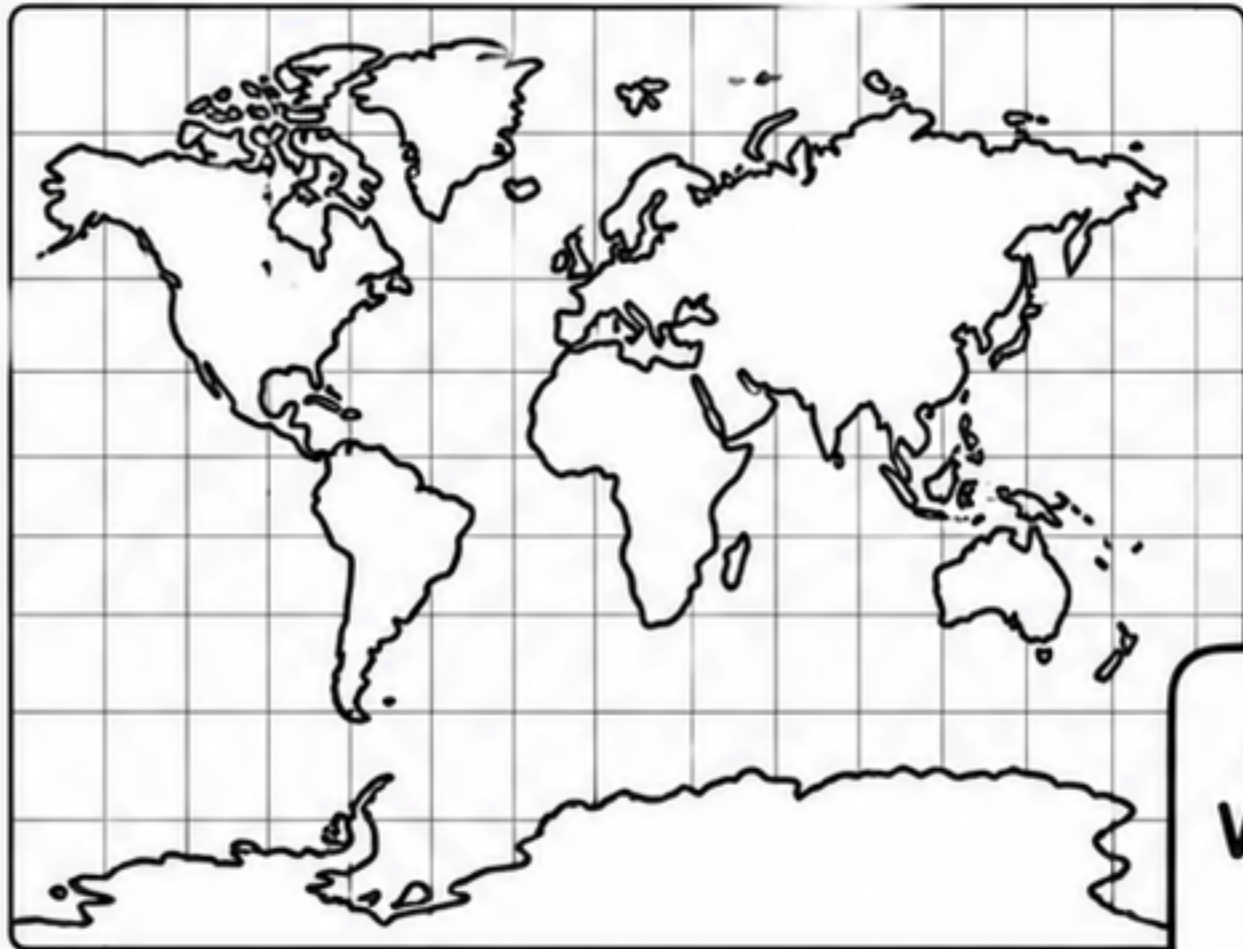

# ALTERNATIVE MAPS (AZIMUTHAL EQUIDISTANT)

In the Flat Earth model, we can use alternative maps that show the world from above—without using a globe.

An Azimuthal Equidistant map shows all places from a center point with accurate distances!

## GLOBE MAP (MERCATOR)

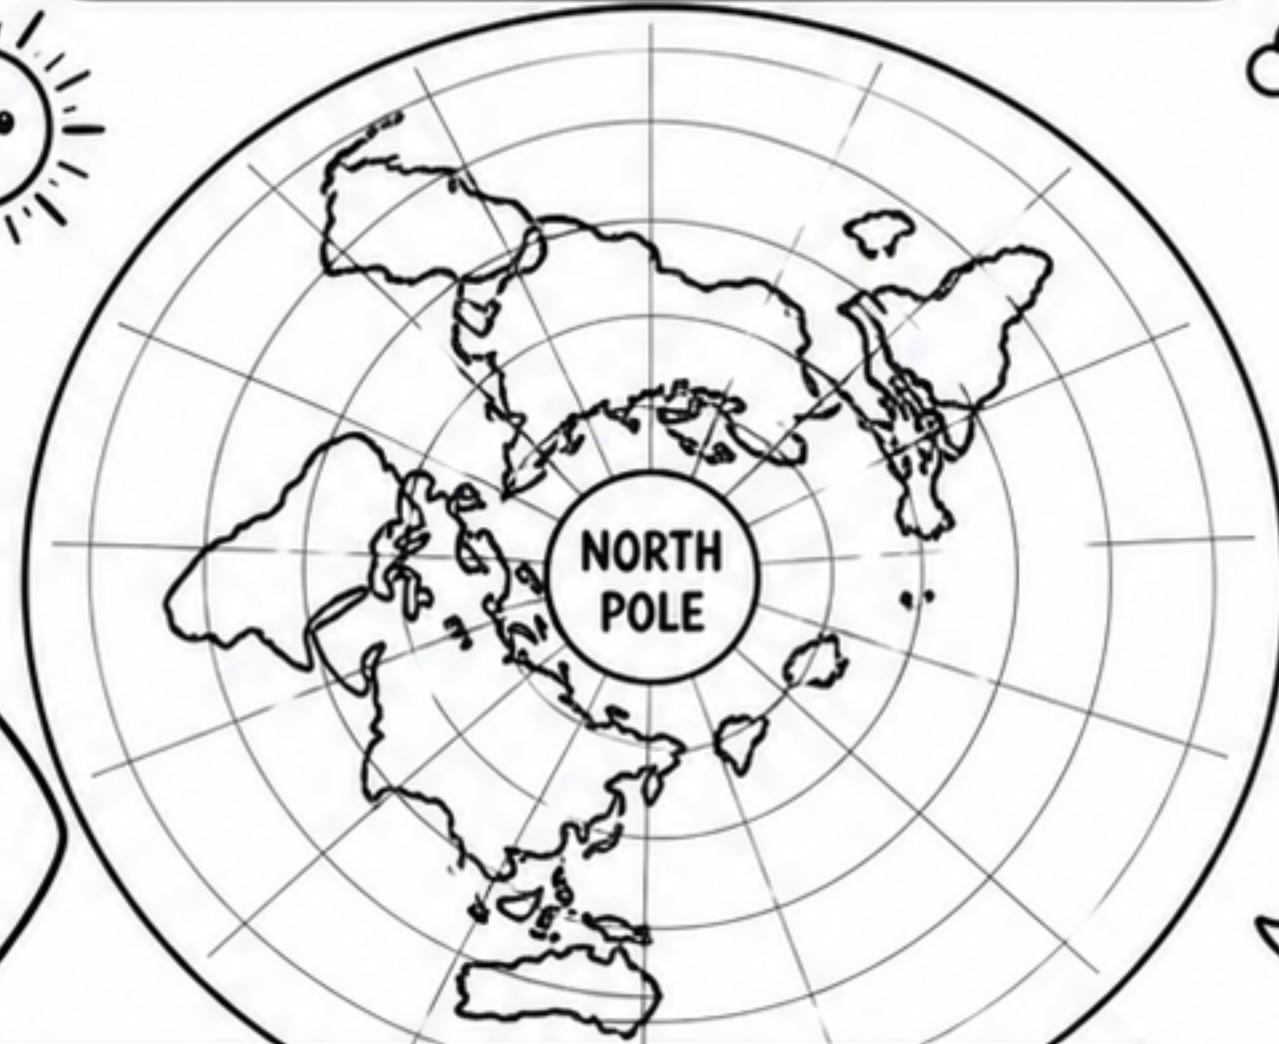

- Made for sailing in straight lines
- Distorts sizes the farther you go from the center
- Not a true view from above

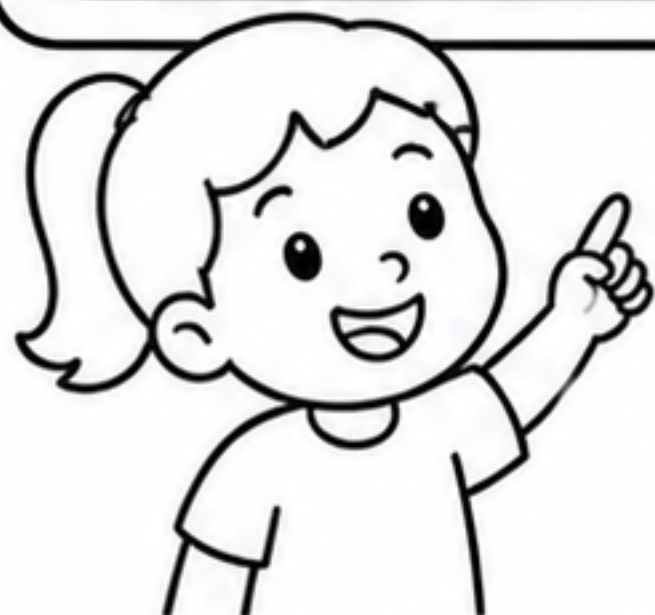

## AZIMUTHAL EQUIDISTANT MAP

A BETTER  
VIEW FROM  
ABOVE!

- Centered on the North Pole
- Shows all lands in the right directions
- Distances from the center are accurate
- A flat map that makes sense!

Azimuthal Equidistant maps are a great way to see the Flat Earth from above—clear, simple, and accurate!

12.

# CONSPIRACIES TO HIDE THE TRUE SHAPE OF EARTH

Some people in power don't want us to know the Earth is flat. They spread lies and hide the truth to keep control.

Why would they do that?  
To keep people confused, afraid, and easy to control!

## WAYS THEY TRY TO HIDE THE TRUTH

### 1. FAKE SPACE PHOTOS

They show fake pictures of a round Earth from "space" that don't exist!

### 2. LIES IN SCHOOLS

They teach the globe model from the start so people won't question it.

### 3. CONTROLLED MEDIA

TV, movies, and news repeat the same story to make it seem real.

### 4. SILENCE AND MOCKERY

They laugh at people who ask questions and try to silence the truth.

### 5. HIDE REAL INFORMATION

They hide real maps, documents, and evidence that prove the Earth is flat.

But when we wake up and think for ourselves...

The truth is hard to hide forever. The Earth is flat, and we can see the truth with our own eyes!

Question. Research. Discover. Know the truth!

**KNOWLEDGE IS POWER. THE TRUTH WILL SET US FREE!**
